The Intellectual Origins of American Slavery John Samuel Harpham, 2025-10-07 John Samuel Harpham shows that the development of slavery in the English Atlantic world was underpinned by a tradition of ideas rooted in Roman law This tradition which explained enslavement as the common fate of war captives informed attitudes toward Africa and became the basis for the earliest defenses of American slavery

Hakluyt's Promise Peter C. Mancall, 2010-03-16 Hakluyt s Promise demonstrates Hakluyt s prominent role in the establishment of English America as well as his interests in English opportunities in the East Indies The volume presents nearly fifty illustrations many unpublished since the sixteenth century and offers a fresh view of Hakluyt s milieu and the central concerns of the Elizabethan age Jacket

Intellectual and Imaginative Cartographies in Early Modern England Patrick Murray, 2022-08-05 Taking as its focus an age of transformational development in cartographic history namely the two centuries between Columbus s arrival in the New World and the emergence of the Scientific Revolution this study examines how maps were employed as physical and symbolic objects by thinkers writers and artists It surveys how early modern people used the map as an object whether for enjoyment or political campaigning colonial invasion or teaching in the classroom Exploring a wide range of literature from educational manifestoes to the plays of Marlowe and Shakespeare it suggests that the early modern map was as diverse and various as the rich culture from which it emerged and was imbued with a whole range of political social literary and personal impulses

Intellectual and Imaginative Cartographies in Early Modern England 1550 1700 will appeal to all those interested in the History of Cartography

Sailing School Margaret E. Schotte, 2019-07-30 Hands on science in the Age of Exploration Winner of the John Lyman Book Award in Naval and Maritime Science and Technology by the North American Society for Oceanic History and the Leo Gershoy Prize by the American Historical Association Throughout the Age of Exploration European maritime communities bent on colonial and commercial expansion embraced the complex mechanics of celestial navigation They developed schools textbooks and instruments to teach the new mathematical techniques to sailors As these experts debated the value of theory and practice memory and mathematics they

created hybrid models that would have a lasting impact on applied science In *Sailing School* a richly illustrated comparative study of this transformative period Margaret E Schotte charts more than two hundred years of navigational history as she investigates how mariners solved the challenges of navigating beyond sight of land She begins by outlining the influential sixteenth century Iberian model for training and certifying nautical practitioners She takes us into a Dutch bookshop stocked with maritime manuals and a French trigonometry lesson devoted to the idea that navigation is nothing more than a right triangle The story culminates at the close of the eighteenth century with a young British naval officer who managed to keep his damaged vessel afloat for two long months thanks largely to lessons he learned as a keen student This is the first study to trace the importance for the navigator s art of the world of print Schotte interrogates a wide variety of archival records from six countries including hundreds of published textbooks and never before studied manuscripts crafted by practitioners themselves Ultimately *Sailing School* helps us to rethink the relationship among maritime history the Scientific Revolution and the rise of print culture during a period of unparalleled innovation and global expansion *Writing Geographical Exploration* Wayne Kenneth David Davies, Arctic Institute of North America, 2004 His tale of adventure should occupy a more prominent place in the study of exploration literature and history not only in Canada but also in his homeland of Wales Jacket

Kupperman,2009-06-30 Listen to a short interview with Karen Ordahl Kupperman Host Chris Gondek Producer Heron Crane Captain John Smith's 1607 voyage to Jamestown was not his first trip abroad He had traveled throughout Europe been sold as a war captive in Turkey escaped and returned to England in time to join the Virginia Company's colonizing project In Jamestown migrants merchants and soldiers who had also sailed to the distant shores of the Ottoman Empire Africa and Ireland in search of new beginnings encountered Indians who already possessed broad understanding of Europeans Experience of foreign environments and cultures had sharpened survival instincts on all sides and aroused challenging questions about human nature and its potential for transformation It is against this enlarged temporal and geographic background that Jamestown dramatically emerges in Karen Kupperman's breathtaking study *Reconfiguring the national myth of Jamestown's failure* she shows how the settlement's distinctly messy first decade actually represents a period of ferment in which individuals were learning how to make a colony work Despite the settlers dependence on the Chesapeake Algonquians and strained relations with their London backers they forged a tenacious colony that survived where others had failed Indeed the structures and practices that evolved through trial and error in Virginia would become the model for all successful English colonies including Plymouth Capturing England's intoxication with a wider world through ballads plays and paintings and the stark reality of Jamestown for Indians and Europeans alike through the words of its inhabitants as well as archeological and environmental evidence Kupperman re-creates these formative years with astonishing detail

Geographers Elizabeth Baigent,André Reyes Novaes,2019-12-26 Women are the exclusive focus of the 38th volume of *Geographers* For the first time in the series history the entire volume is devoted to important work of distinguished female geographers amply demonstrating how these scholars' professional lives enrich the discipline's history It also illustrates how reading and writing their biographies not only expands our understanding of geography's past but points to its more diverse future The collection includes biographies of Doreen Massey winner of geography's Nobel prize the prix Vautrin Lud for her remarkable contribution to geography and neighbouring disciplines which discovered the importance of space through her work Helen Wallis geographer and historian of cartography who for many years had charge of the UK's foremost collection of maps Alice Saunier Set who applied her geographical training and formidable energy to teaching and educational reform in France Isabel Margarida Andr who lived through a turbulent political period in her native Portugal and meticulously investigated its effect on women and political geography and the many women who helped to create the UK's first Geography department the University of Oxford's School of Geography including Fanny Herbertson Nora MacMunn Marjorie Sweeting Mary Marshall Barbara Kennedy and other women geographers who are memorialised in a group article **Tracing the**

Turner, 2016-06-17 At a time when the standing and status of corporations is much in the news this study of the early modern history of the concept of the corporation is particularly timely Henry S Turner provides a new account of early modern political institutions and political concepts by turning to the history of the corporation as a type of notional person and as a way of organizing collective life Universities guilds towns and cities religious confraternities joint stock companies all were legal corporations and all enjoyed rights and freedoms that sometimes exceeded the authority of the State Drawing on the resources of economic and colonial history literary criticism law political philosophy and the history of science Turner reads works by Thomas More William Shakespeare Francis Bacon and Thomas Hobbes among many others to find the resources for a new account of corporations as fictional bodies and persons endowed with identities rights and the capacity for action Turner tackles a number of fascinating questions How did early modern writers make sense of the paradoxical essence of the corporatona collectivity at once imaginary and material coherent but unbounded many and at the same time one And what can the history of the corporation tell us about the history of our own moment when public goods are increasingly privatized and citizens seek new models of association and meaningful political action His answers will be of compelling interest to historians political theorists literary scholars and others **From New Babylon to Eden** Bertrand Van Ruymbeke, 2025-10-02 A revealing account of the choices French immigrants faced as they settled in South Carolina Winner of the National Huguenot Society s 2007 Book of the Year award From New Babylon to Edentraces the persecution of Huguenots in France and the eventual immigration of a small bloc of the French Calvinist population to proprietary South Carolina Placing the Carolina migration in the context of the larger Huguenot diaspora Van Ruymbeke proffers an account

that challenges accepted history Describing their settlement as a process of acculturation and creolization rather than simply assimilation he contends that most of these French Calvinists sought to create their own churches but were thwarted by an Anglicized elite eager to dominate Anglo Carolinian society He also reveals that most members of the initial generation were only moderately prosperous and that it was their descendants who acquired the wealth often associated with lowcountry Huguenots A new foreword by Owen Stanwood and preface from the author consider the continuing significance of the book nearly twenty years after its original publication *The Struggle for the South Atlantic: The Armada of the Strait, 1581-84*
Carla Rahn Phillips, 2017-07-14 The Armada of the Strait under Don Diego Flores de Vald s in 1581 84 came at a crucial juncture in global politics Philip II of Spain had assumed the crown of Portugal and its overseas empire and Francis Drake s daring peacetime raids had challenged the dominance of Spain and Portugal in the Americas The armada was intended to ensure the loyalty of Portuguese Brazil bolster its defences against hostile native peoples and English and French pirates and interlopers and fortify and settle the Strait of Magellan to prevent further incursions into the Pacific Pedro de Rada the official scribe of the armada kept a detailed neutral chronicle of the venture which remained in private hands until 1999 but is now held in the Henry E Huntington Library in San Marino California It is published here for the first time Previous historical assessments of the expedition have largely reflected the writings of Pedro Sarmiento de Gamboa governor designate for the planned colony at the Strait who blamed all the misfortunes of the enterprise on Diego Flores de Vald s Rada s Relaci n is presented here in conjunction with other documentation and compared with Sarmiento de Gamboa s accusations The results will force scholars to revise long standing conclusions regarding the place of Sarmiento and Flores in Spanish history and the accomplishments of a long forgotten armada sent into the terrifying waters of the South Atlantic
