The Hat Box Our Town:

This Is Our Town Alexandra Osborn Spotti, 2021-08-20 With World War II raging throughout Europe the United States knew it needed to produce magnesium the miracle metal in prodigious quantities Thousands of souls from across the United States heeded the call and traveled to Southern Nevada to build the world's largest magnesium production plant Living conditions were harsh in the parched desert encampment that some called Tent City But the iron-willed men and women who answered the call would break all records in magnesium production When the war ended however a mass exodus from the settlement left it on the brink of becoming just another ghost town In this book the author offers readers a front row seat to the development of Henderson Nevada In plain straightforward language she examines the forces that propelled the small community through the war and how it continued to thrive into the twenty-first century Whether you're interested in World War II the history of Nevada or the history of Henderson in particular this book reveals the powerful impact of a small desert town
