The Hermeneutics Of Postmodernity Figures And Themes:

The Hermeneutics of Postmodernity Gary Brent Madison,1990 Dialogue and Deconstruction Diane P.

Michelfelder,Richard E. Palmer,1989-07-03 Text of and reflection on the 1981 encounter between Hans Georg Gadamer and Jacques Derrida which featured a dialogue between hermeneutics in Germany and post structuralism in France

Philosophical Hermeneutics Reinterpreted Paul Fairfield,2011-08-11 In this important new study Paul Fairfield examines a number of issues of central importance to philosophical hermeneutics His aim is less to reexamine the basic hypotheses of hermeneutics Gadamer s hermeneutics in particular than to understand it in relational terms by bringing it into closer association with existentialism pragmatism critical theory and postmodernism Fairfield contends that there are important affinities and areas for critical exchange between hermeneutics and these four schools of thought which have until now remained underappreciated Philosophical Hermeneutics Reinterpreted examines several of these connections by interpreting hermeneutics in relation to specific themes in the writings of key figures within each of these traditions In so doing he both clarifies some outstanding issues in hermeneutics and advances the subject beyond what Heidegger Gadamer and Ricoeur have given us *Bultmann Unlocked* Tim Labron,2011-01-13 Critical Pedagogy Primer Joe L. Kincheloe,2008 The second edition of the Critical Pedagogy Primer not only introduces the topic but also provides a vision for the future of the critical pedagogy Kincheloe s notion of an evolving criticality makes sure that critical pedagogy will continue to be a vibrant and creative force that makes a powerful difference in education and in the world in general As it prepares readers for the challenges of the future it focuses on the traditions and individuals who have helped construct the discipline This attention to the past and the future provides readers with an introduction unlike most initiations into academic disciplines In a richly textured but direct manner Kincheloe captures the spirit of critical pedagogy in a language accessible to diverse audiences Both the uninitiated and those with experience in critical pedagogy can learn from this unique and compelling perspective on the field **Taking Appearance Seriously** Henri Bortoft,2012-10-25 The history of western metaphysi from Plato onwards is dominated by the dualism of being and appearance What something really is its true being is believed to be hidden behind the mere appearances through which it manifests Twentieth century European thinkers radically overturned this foundation With Martin Heidegger and Hans Georg Gadamer came a major step towards taking appearance seriously exploring a way of seeing that draws attention back upstream from what is experienced into the act of experiencing Understood in this way perception is a dynamic event a phenomenon in which the observer participates Henri Bortoft guides us through this dynamic way of seeing in various areas of experience in distinguishing things the finding of meaning and the relationship between thought and words He also explores similarities with Goethe s reflections on the coming into being of the living plant Here in another reversal of classical thinking we find that even in their diversity of appearences living things are not separate but in relation Diversity is the dynamic unity of life itself Expanding the scope of his previous book *The Wholeness*

of Nature the author shows how Goethean insights combine with the dynamic way of seeing in continental philosophy to offer us an actively experienced life of meaning This book will be of interest to anyone who wants to understand the contribution and wider implications of modern European thought in the world today **Foundations of Inquiry** Guoping Zhao,Lucy E. Bailey,2025-09-04 When researchers adopt a methodology they bring to their research the theoretical assumptions infused within that methodology and the paradigm that shapes that methodology describes their view of social life This book is about paradigms and how they connect to methodologies The authors explore a rich body of paradigms and how they support different methodologies and connect to designing and carrying out research The book includes clear explanations of complex material a thorough development of established paradigms and discussion of contemporary ones such as general interpretivism critical race theory and Indigenous orientations The book s pedagogy includes examples of published research discussion of the issues related to each paradigm and the connections between them and review questions and prompts to help deepen understanding **The Travelling Concepts of Narrative** Mari Hatavara,Lars-Christer Hydén,Matti Hyvärinen,2013-06-15 Narrative is a pioneer concept in our trans disciplinary age For decades it has been one of the most successful catchwords in literature history cultural studies philosophy and health studies While the expansion of narrative studies has led to significant advances across a number of fields the travels for the concept itself have been a somewhat more complex Has the concept of narrative passed intact from literature to sociology from structuralism to therapeutic practice or to the study of everyday storytelling In this volume philosophers psychologists literary theorists sociolinguists and sociologists use methodologically challenging test cases to scrutinize the types transformations and trajectories of the concept and theory of narrative The book powerfully argues that narrative concepts are profoundly relevant in the understanding of life experience and literary texts Nonetheless it emphasizes the vast contextual differences and contradictions in the use of the concept *Bodied Spaces* Stanton Garner,2019-04-15 At me too someone is looking Samuel Beckett *Waiting for Godot* In a venturesome study of corporeality and perception in contemporary drama Stanton B Garner Jr turns this awareness of the spectator s gaze back upon itself His book takes up two of drama s most essential and elusive elements spatiality through which plays establish fields of visual and environmental relationship and the human body through which these fields are articulated Within the spatial terms of theater this book puts the body and its perceptual worlds back into performance theory Garner s approach is phenomenological emphasizing perception and experience in the theatrical environment His discussion of the work of playwrights after 1950 including Samuel Beckett Eugene Ionesco Peter Weiss Harold Pinter Sam Shepard David Mamet Edward Bond Maria Irene Fornes Caryl Churchill and Ntozake Shange explores the body s modes of presence in contemporary drama Drawing on work in areas as diverse as scenographic theory medical phenomenology contemporary linguistics and feminist theories of the body Garner addresses topics such as theatrical image stage objects dramatic language the suffering body and the staging of gender all with a view toward developing a

phenomenology of mise en scene *Corresponding Sense* Brook W.R. Pearson,2021-10-01 *Corresponding Sense* represents a turning point in the application of hermeneutics to New Testament texts Following the example of Hans Georg Gadamer's philosophical hermeneutics Pearson treats several different problems in New Testament interpretation centred around the figure of Paul In so doing he demonstrates how a dialogical approach to the interpretation of ancient texts functions pragmatically to allow for a deeper understanding not only of individual texts but also of their siting with the larger dialectical web of the texts and contexts of the ancient world This approach developed here in connection with the New Testament also has relevance to other literature In *Corresponding Sense* Pearson outlines what he calls a dialectical topography the tracing of connections and disjunctions between texts and their subject matter both within and outside of the New Testament He uses both theoretical and practical discussion to demonstrate this approach showing how it functions as a new way of approaching a Paul who is a member of a much larger community than simply the Judaism of his fathers a Paul who participates in cultural narratives which extend throughout not only earliest Christianity but also into the wider thought world of the Roman Empire **The Narrative Turn in Fiction and Theory** H. Meretoja,2014-10-06 *The Narrative Turn in Fiction and Theory* explores the philosophical and historical underpinnings of the postwar crisis and return of storytelling and shows their relevance for the ongoing debate on the significance of narrative for human existence *Qualitative Research in the Post-Modern Era* Robert E. White,Karyn Cooper,2022-09-29 This volume describes and discusses some of the intricacies associated with qualitative research in this post modern era It is the second of a two volume set It strives to define terms identifies paradigms methodologies and approaches that are applicable to novice and expert researchers alike The book pays special attention to the biographies of those individuals who have helped to shape and develop these methodologies or research designs In addition consideration is given to historical and political underpinnings that relate to the development of qualitative research methodologies Each research design is described in detail and the similarities and differences among them are explored This volume makes use of a contextual approach to research and features interviews with scholars who have assisted in developing such methodologies Of interest are numerous features such as questions for further study and annotated bibliographies that extend the scope of each of the methodologies described **Reading Cultures** Molly Abel Travis,1998 Molly Abel Travis unites reader theory with an analysis of historical conditions and various cultural contexts in this discussion of the reading and reception of twentieth century literature in the United States Travis moves beyond such provisional conclusions as the text produces the reader or the reader produces the text and considers the ways twentieth century readers and texts attempt to constitute and appropriate each other at particular cultural moments and according to specific psychosocial exigencies She uses the overarching concept of the reader in and out of the text both to differentiate the reader implied by the text from the actual reader and to discuss such in and out movements that occur in the process of reading as the alternation between immersion and interactivity and between role playing and unmasking Most

reader theorists fix on the product of reading and exclude the process Travis notes which means they necessarily focus on the text Even theorists who argue for the reader's resistance make the text so determinant that they conceive of text and reader as discrete entities in a closed universe with these entities exerting force and counterforce respectively Missing in these accounts are wave and field theories concerned with such dynamic and contrastive effects as changes in the art of literary reading over historical periods and differences among readers in the context of a cultural field Travis seeks to fill gaps in current reader theories by focusing on process and difference Unlike most reader theorists Travis is concerned with the agency of the reader Her conception of agency in reading is informed by performance psychoanalytic and feminist theories This agency involves compulsive reiterative performance in which readers attempt to find themselves by going outside the self engaging in literary role playing in the hope of finally and fully identifying the self through self differentiation Furthermore readers never escape a social context they are both constructed and actively constructing in that they read as part of interpretive communities and are involved in collaborative creativity or what Kendall Walton calls collective imagining

Merleau-Ponty Vivant Martin C. Dillon, 1991-01-01 Situates Merleau Ponty's thinking in the last decade of the twentieth century both with regard to general context and specific themes *American Phenomenology* E.F. Kaelin, Calvin O. Schrag, 2012-12-06 THEODORE KISIEL Date of birth October 30 1930 Place of birth Brackenridge Pennsylvania Date of institution of highest degree PhD Duquesne University 1962 Academic appointments University of Dayton Canisius College Northwestern University Duquesne University Northern Illinois University I first left the university to pursue a career in metallurgical research and nuclear technology But I soon found myself drawn back to the university to round out an overly specialized education It was along this path that I was waylaid into philosophy by teachers like H L Van Breda and Bernard Boelen The philosophy department at Duquesne University was then 1958 1962 a veritable little Louvain and the Belgian Dutch connection exposed me to among other visiting scholars Jean Ladriere and Joe Kockelmans who planted the seeds which eventually led me to the hybrid discipline of a hermeneutics of natural science and prompted me soon after graduation to make the first of numerous extended visits to Belgium and Germany The endeavor to learn French and German led me to the task of translating the phenomenological literature bearing especially on natural science and on Heidegger The talk in the sixties was of a continental divide in philosophy between Europe and the Anglo American world But in designing my courses in the philosophy of science I naturally gravitated to the works of Hanson Kuhn Polanyi and Toulmin without at first fully realizing why I felt such a strong kinship with them beyond their common anti positivism **Merits and Limits of Markets** Herbert Giersch, 2012-12-06 The 1997 Symposium of the Egon Sohmen Foundation which gave rise to this book took place in the United States on the East Coast between New York and New Haven more precisely in Stamford Conn The original choice had been a place close to Yale University where Egon Sohmen taught economics from 1958 to 1960 subsequent to his period at MIT But the hotel in New Haven was closed down by a new owner to pass through a process of

creative destruction Change of ownership on a large scale and as a transition from public to private hands had been the topic of the preceding Egon Sohmen Symposium in Budapest in 1996 published under the heading Privatization at the End of the Century Springer Verlag 1997 Yet mere change of ownership some of us at the Foundation felt in subsequent months was too narrow a focus to properly deal with the movement under consideration a transition of ownership together with a general move towards a competitive market system characterized by global openness uncertainty decentralized risk bearing and the increasing importance of information and innovation *Is There a Meaning in this Text?* Kevin J. Vanhoozer, 2009 Written by a brilliant young author this book develops an evangelical theological hermeneutic that sees meaning in the text of Scripture

Paul Ricoeur Frans D. Vansina, 2000 Already more than sixty years Paul Ricoeur enriches the international philosophical patrimony with an astonishing number of highly technical books and enlightening reflections on actual problems and situations To serve the community of researchers in philosophy I have already published two systematic bibliographies of and on Ricoeur in 1985 and 1995 Encouraged by friends and colleagues I present now another updated bibliography as exhaustive as possible *The Renewal of Preaching in the Twenty-first Century, Second Edition* David J.

Randolph, 2008-07-01 Deep faith meets high tech here in *The Renewal of Preaching in the Twenty-first Century* A communications revolution is sweeping through the churches leaving some on fire and others burned out This work shows what makes the difference for church leaders and communities who are using new media to advance Christian preaching Join them by recovering the great tradition and expanding it through creative use encouraged by artists and filmmakers as well as preachers and professors This work explores ways to maximize the promise of preaching and confront the perils leading to the renewal of church and society Beginning with review of the situation today we proceed step by step through the preparation and presentation of the sermon leading to transformation The sermon in the local parish is seen as the microcosm of the macrocosm that is the communication of God's good news **Introduction to Philosophical**

Hermeneutics Jean Grondin, 1994-01-01 In this wide ranging historical introduction to philosophical hermeneutics Jean Grondin discusses the major figures from Philo to Habermas analyzes conflicts between various interpretive schools and provides a persuasive critique of Gadamer's view of hermeneutic history though in other ways Gadamer's Truth and Method serves as a model for Grondin's approach Grondin begins with brief overviews of the pre-nineteenth century thinkers Philo Origen Augustine Luther Flacius Dannhauer Chladenius Meier Rambach Ast and Schlegel Next he provides more extensive treatments of such major nineteenth century figures as Schleiermacher Bckh Droysen and Dilthey There are full chapters devoted to Heidegger and Gadamer as well as shorter discussions of Betti Habermas and Derrida Because he is the first to pay close attention to pre-Romantic figures Grondin is able to show that the history of hermeneutics cannot be viewed as a gradual steady progression in the direction of complete universalization His book makes it clear that even in the early period hermeneutic thinkers acknowledged a universal aspect in interpretation that long before Schleiermacher hermeneutics was

philosophical and not merely practical In revising and correcting the standard account Grondin s book is not merely introductory but revisionary suitable for beginners as well as advanced students in the field
