St. Francis Poet of Creation Susan Saint Sing, 2011-05-01 St Francis Poet of Creation The Story of The Canticle of Brother Sun by Susan Saint Sing **Francis of Assisi and His "Canticle of Brother Sun" Reassessed B.** Moloney, 2013-10-09 Bringing the skills of a literary historian to the subject Brian Moloney considers the genesis of Saint Francis of Assisi's Canticle of Brother Sun to show how it works as a carefully composed work of art The study examines the saint's life and times the structure of the poem the features of its style and the range of its possible meanings **Poets of Divine Love** Alessandro Vettori, 2004 Clearly written this incisive critical study opens a new analytic window not only to the rhetoric of medieval Italian poetry but also to a richer understanding of one of the most important strands of medieval European culture **Water, Rhetoric, and Social Justice** Theresa R. Castor, Casey R. Schmitt, Christopher S. Thomas, 2020-01-20 Water Rhetoric and Social Justice A Critical Confluence examines how individuals and communities have responded on a global scale to present day water crises as matters of social justice through oratory mass demonstration deliberation testimony and other rhetorical appeals This book applies critical communication methods and perspectives to interrogate the pressing yet mind boggling dilemma currently faced in environmental studies and policy that clean water the very stuff of life which flows freely from the tap in affluent areas is also denied to huge populations materially and fluidly exemplifying the currents of justice liberty and equity Contributors highlight discourse and water justice movements in nonofficial spheres from activists artists and the grassroots In extending the technical economic moral and political conversations on water justice this collection applies special focus on the novel rhetorical concepts and responses not necessarily unique to but especially enacted in water justice situations Scholars of rhetoric sociology activism communication and environmental studies will find this book particularly useful **St. Francis of Assisi and Nature** Roger D. Sorrell, 1988-12-08 One of the best loved saints of all time Francis of Assisi is often depicted today as a kind of proto hippie or early environmentalist This book the most comprehensive study in English of Francis's view of nature in the context of medieval tradition debunks modern anachronistic interpretations arguing convincingly that Francis's ideas can only be understood in their 13th century context Through close analysis of Francis's writings particularly the Canticle of the Sun Sorrell shows that many of Francis's beliefs concerning the proper relation of humanity to the natural world have their antecedents in scripture and the medieval monastic orders while other ideas and practices his nature mysticism his concept of familial relationships with created things and his extension of chivalric conceptions to interactions with creatures are entirely his own Sorrell insists however that only by seeing Francis in terms of the Western traditions from which he arose can we appreciate the true originality of this extraordinary figure and the relevance of his thought to modern religious and environmental concerns Creation and Salvation: A companion on recent theological movements E. M. Conradie, 2012 Christians trying to save the planet have to relate creation with salvation This volume explores the ways in which this task is

McCarthy, 2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St. Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant's world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination **The Theological and Ecological Vision of Laudato Si'**, 2017-07-27 This volume provides a comprehensive introduction to the spiritual moral and practical themes of Pope Francis encyclical Laudato Si' Leading theologians ethicists scientists and economists provide accessible overviews of the encyclical's major teachings the science it engages and the policies required to address the climate crisis Chapters on the encyclical's theological and moral teachings situate them within the Christian tradition and papal teaching Science and policy chapters engaging the encyclical and provide introductions to the Fifth Assessment Report of the Intergovernmental Panel on Climate Change The book provides a guide for those wishing to explore the issues raised by Laudato Si' but who lack the specialist knowledge required to know where to begin Aimed at an undergraduate audience this book provides a reliable introduction to the major themes of Laudato Si' such as a theology of Creation that embraces the insights of contemporary science a renewed understanding of the human person in relationship to the rest of creation a spiritual vision of love and responsibility for all creation the necessary connection between Christian solidarity with the poor and concern for the environment an introduction to the social encyclical tradition from which Laudato Si' both draws and develops **The United Nations World Encyclopedia**, 1909 **Black Eco-theology Through History** Dianne D.
