**The Great God Pan and Other Horror Stories** Arthur Machen, 2018-01-18. Something pushed out from the body there on the floor and stretched forth a slimy, wavering tentacle. Perhaps no figure better embodies the transition from the Gothic tradition to modern horror than Arthur Machen. In the final decade of the nineteenth century, the Welsh writer produced a seminal body of tales of occult horror, spiritual and physical corruption, and malignant survivals from the primeval past which horrified and scandalised late Victorian readers. Machen's weird fiction has influenced generations of storytellers from H. P. Lovecraft to Guillermo Del Toro, and it remains no less unsettling today. This new collection, which includes the complete novel *The Three Impostors* as well as such celebrated tales as *The Great God Pan* and *The White People*, constitutes the most comprehensive critical edition of Machen yet to appear. In addition to the core late Victorian horror classics, a selection of lesser-known prose poems and later tales helps to present a fuller picture of the development of Machen's weird vision. The edition's introduction and notes contextualise the life and work of this foundational figure in the history of horror.

**Mummies around the World** Matt Cardin, 2014-11-17. Perfect for school and public libraries, this is the only reference book to combine pop culture with science to uncover the mystery behind mummies and the mummification phenomena. Mortality and death have always fascinated humankind. Civilizations from all over the world have practiced mummification as a means of preserving life after death, a ritual which captures the imagination of scientists, artists, and laypeople alike. This comprehensive encyclopedia focuses on all aspects of mummies: their ancient and modern history, their scientific study, their occurrence around the world, the religious and cultural beliefs surrounding them, and their roles in literary and cinematic entertainment. Author and horror guru Matt Cardin brings together 130 original articles written by an international roster of leading scientists and scholars to examine the art, science, and religious rituals of mummification throughout history. Through a combination of factual articles and topical essays, this book reviews cultural beliefs about death, the afterlife, and the interment, entombment, and cremation of human corpses in places like Egypt, Europe, Asia, and Central and South America. Additionally, the book covers the phenomenon of natural

mummification where environmental conditions result in the spontaneous preservation of human and animal remains
