Wilson, 1987 The dawn of humanism in the Renaissance presented privileged women with great opportunities for personal and intellectual growth Sexual and social roles still determined the extent to which a woman could pursue education and intellectual accomplishment but it was possible through the composition of poetry or prose to temporarily offset hierarchies of gender to become equal to men in the act of creation Edited by Katharina M Wilson this anthology introduces the works of twenty five women writers of the Renaissance and Reformation among them Marie Denti re a Swiss evangelical reformer whose writings were so successful

they were banned during her lifetime Gaspara Stampa a cultivated courtesan of Venetian aristocratic circles who wrote lyric poetry that has earned her comparisons to Michelangelo and Tasso H lisenne de Crenne a French aristocrat who embodied the true spirit of the Renaissance feminist writing both as novelist and as champion of her sex Helene Kottanner Austrian chambermaid to Queen Elizabeth of Hungary whose memoirs recall her daring theft of the Holy Crown of Saint Stephen for her esteemed mistress and Lady Mary Sidney Wroth the first Englishwoman known to write a full length work of fiction and compose a significant body of secular poetry Offering a seldom seen counterpoint to literature written by men Women Writers of the Renaissance and Reformation presents prose and poetry that have never before appeared in English as well as writings that have rarely been available to the nonspecialist The women whose writings are included here are united by a keen awareness of the social limitations placed upon their creative potential of the strained relationship between their gender and their work This concern invests their writings with a distinctive voice one that carries the echoes of a male aesthetic while boldly declaring battle against it

[An Empire Nowhere](#) Jeffrey Knapp, 2023-04-28 What caused England's literary renaissance One answer has been such unprecedented developments as the European discovery of America Yet England in the sixteenth century was far from an expanding nation Not only did the Tudors lose England's sole remaining possessions on the Continent and thanks to the Reformation grow spiritually divided from the Continent as well but every one of their attempts to colonize the New World actually failed Jeffrey Knapp accounts for this strange combination of literary expansion and national isolation by showing how the English made a virtue of their increasing insularity Ranging across a wide array of literary and extraliterary sources Knapp argues that English poets rejected the worldly acquisitiveness of an empire like Spain's and took pride in England's material limitations as a sign of its spiritual strength In the imaginary worlds of such fictions as Utopia The Faerie Queene and The Tempest they sought a grander empire founded on the otherworldly virtues of both England and poetry itself This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992
