The Image in Early Cinema Scott Curtis, Philippe Gauthier, Tom Gunning, Joshua Yumibe, 2018-03-22 In *The Image in Early Cinema* the contributors examine intersections between early cinematic form technology theory practice and broader modes of visual culture They argue that early cinema emerged within a visual culture composed of a variety of traditions in art science education and image making Even as methods of motion picture production and distribution materialized they drew from and challenged practices and conventions in other mediums This rich visual culture produced a complicated overlapping network of image making traditions innovations and borrowing among painting tableaux vivants photography and other pictorial and projection practices Using a variety of concepts and theories the contributors explore these crisscrossing traditions and work against an essentialist notion of media to conceptualize the dynamic interrelationship between images and their context

Inside the Film Factory Ian Christie, Professor Richard Taylor, Richard Taylor, 2005-08-19 This is the first collection to be inspired and informed by the new films and archival material that glasnost and perestroika have revealed and the new methodological approaches that are developing in tandem Film critics and historians from Britain America France and the USSR attempt the vital task of scrutinising Soviet film and re examining the Cold War assumptions of traditional historiography Whereas most books on Soviet giants have glorified the directorial giants of the golden age of the 1920s *Inside the Film Factory* also recognises the achievements of popular cinema

from the pre Revolutionary period through to the 1930s and beyond It also evaluates the impact of Western cinema on the early experimenters of montage Russian science fiction s influence on film making and the long suppressed history of Soviet Yiddish productions Alongside the new perspectives and source material on the much mythologised figures of Kuleshov and Medvedkin the book provides the first extended accounts in English of the important but neglected careers of directors Yakov Protazanov and Boris Barnet

Screen Culture John Fullerton, 2004 Screen Culture History and Textuality explores the impact of digital culture on the discipline of film and television studies Whether the notion of screen culture is used to designate the technological platforms common to present day digital media or whether it refers to the support material on which moving images have historically been projected scanned or displayed the 15 previously unpublished essays included here are primarily concerned with the intermedial appraisal of film television and digital culture Contributors are Richard Abel William Boddy Ben Brewster John Fullerton Douglas Gomery Alison Griffiths Vreni Hockenjos Jan Holmberg Arne Lunde Peter Lunenfeld Charles Musser Jan Olsson Barry Salt Michele L Torre William Uricchio and Malin Wahlberg Stockholm Studies in Cinema series Distributed for John Libbey Publishing

Greek Tragedy into Film Kenneth MacKinnon, 2013-10-08 If Greek tragedy is sometimes regarded as a form long dead and buried both theatre producers and film directors seem slow to accept its interment Originally published in 1986 this book reflects the renewed interest in questions of staging the Greek plays to give a comprehensive account and critical analysis of all the important versions of Greek tragedy made on film From the 1927 footage of the re enactment of Aeschylus Prometheus in Chains at the Delphi Festival organised by Angelos Sikelianos to Pasolini s Notes for an African Oresteia the study encompasses the version of Oedipus by Tyrone Guthrie Tzavellas s Antigone with Irene Papas Michael Cacoyannis s series which included Electra The Trojan Women and Iphigeneia Pasolini s Oedipus and Medea with Maria Callas Miklos Jancso s Elektra Dassim s Phaedra and others Many interesting questions are raised by the transference of a highly stylised form such as Greek tragedy to what is often claimed to be the realistic medium

of film What becomes clear is that the heroic myths retain with ease the power to move the audiences in very different milieux through often strikingly different means The book may be read as an adjunct to viewing of the films but enough synopsis is given to make its arguments accessible to those familiar only with the classical texts or with neither version
