**Reflections on the Marxist theory of history** Paul Blackledge, 2013-07-19 A decade after Francis Fukuyama announced the End of History anti-capitalist demonstrators at Seattle and elsewhere have helped reinvigorate the Left with the reply another world is possible More than anyone else it was Marx who showed that slogans such as this were no utopian fantasies and that capitalism was just as much a historical mode of production no more natural and certainly no less contradictory than were the feudal and slave modes which preceded it Paul Blackledge opens this study with a defence of the Marxist approach to the study of history against what he argues as being the naive empiricism of traditional historians and the relativism of the postmodernists He moves on to outline Marx and Engels' analyses of concrete historical processes and their critiques of the alternative historiographic methodologies of their contemporaries He then discusses neglected historical works produced by Marxists in the half century or so after Marx and Engels' deaths Two central chapters survey recent Marxist debates on first the nature of modes of productions including slave feudal and tributary systems and the revolutionary transitions between them and second the methodological debate over the issue of structure and agency in the movement of history Finally he shows the political relevance of these debates through a concluding survey of competing Marxist attempts to periodise the present postmodern

conjuncture This book should be read by historians students of cultural social and political theory and anti capitalist activists

Stalin's Defectors Mark Edele, 2017-06-16 Stalin's Defectors is the first systematic study of the phenomenon of frontline surrender to the Germans in the Soviet Union's Great Patriotic War against the Nazis in 1941-1945 No other Allied army in the Second World War had such a large share of defectors among its prisoners of war Based on a broad range of sources this volume investigates the extent the context the scenarios the reasons the aftermath and the historiography of frontline defection It shows that the most widespread sentiments animating attempts to cross the frontline was a wish to survive this war Disgruntlement with

Stalin's socialism was also prevalent among those who chose to give up and hand themselves over to the enemy. While politics thus played a prominent role in pushing people to commit treason, few desired to fight on the side of the enemy. Hence, while the phenomenon of frontline defection tells us much about the lack of popularity of Stalin's regime, it does not prove that the majority of the population was ready for resistance, let alone collaboration. Both sides of a long-standing debate between those who equate all Soviet captives with defectors and those who attempt to downplay the phenomenon then over stress their argument. Instead, more recent research on the moods of both the occupied and the unoccupied Soviet population shows that the majority understood its own interest in opposition to both Hitler's and Stalin's regime. The findings of Mark Edele in this study support such an interpretation.

**Stalin** Sarah Davies, James Harris, 2005-09-08 The figure of Joseph Stalin has always provoked heated and often polarized debate. The recent declassification of a substantial portion of Stalin's archive has made possible this fundamental new assessment of the Soviet leader. In this groundbreaking 2005 study leading international experts challenge many assumptions about Stalin from his early life in Georgia to the Cold War years with contributions ranging across the political, economic, social, cultural, ideological and international history of the Stalin era. The volume provides a deeper understanding of the nature of Stalin's power and of the role of ideas in his politics, presenting a more complex and nuanced image of one of the most important leaders of the twentieth century. This study is without precedent in the field of Russian history and will prove invaluable reading for students of Stalin and Stalinism.

**Rethinking Caste and Resistance in India** Murzban Jal, 2023-06-23 This book is a collection of essays by prominent thinkers on the historicist and humanist transcendence of the caste system such that an authentic democracy can bloom in India. It locates caste as not only a social problem but a moral evil and schizophrenia affecting India civilization. Besides reflecting on Jotiba Phule, Karl Marx and B. R. Ambedkar, this book also traverses through Nietzschean genealogy, communalism in colonial India, the need for radical education to fulfil the democratic revolution, the literature of Triveni Sangh, questions of social exclusion and inequality, the story of Eklavya in the Mahabharata and the asking of pertinent questions to the Indian left. This book is co-published with Aakar Books. Print edition not for sale in South Asia, India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan.

*The Magical Lantern* Murzban Jal, 2022-11-28 The book *The Magical Lantern* is a collection of essays on Marxist philosophy. It is based on the philosophical reflection on Marx's idea of phantasmagoria as the magical lantern that creates eerie images, an idea that is central to Marx's theory of modern capitalist societies. It talks of the importance of Marx's philosophy and its application in concrete politics, especially in creating socialist humanist philosophy of human emancipation where global societies can be emancipated from the phantasmagorias that haunt them, thus able to transcend global capitalism which is in terminal and permanent crisis. It then critiques the rise of authoritarian regimes emerging all over the world and seeks to explain the rise of global totalitarianism. But it claims that the answer to authoritarianism is not liberalism, since liberalism is part of the late imperialism in permanent crisis as well as it involves what Slavoj Žižek calls the *Denkverbot*.

the prohibition against thinking and thus involves the return of the eerie phantasmagoria that does not allow critical thinking. However, the critique of liberalism does not relapse into orthodox Marxism since this book argues that in the genre of orthodox Marxism the ghosts of Stalin and Mao with their own authoritarianism haunt philosophies of human emancipation. While Stalin is portrayed as a brutal counter-revolutionary who destroyed Marxism by evoking Marxism itself, Mao is presented as the alchemist of the revolution and a peculiar form of Stalinism in rebellion against Stalinism itself. The chapters in this book were originally published in *Critique Journal of Socialist Theory*.
