**Stamboul Train** Graham Greene, 1947 **Stamboul Train**, 1974 Graham Greene's Thrillers and the 1930s Brian Diemert, 1996 In *Graham Greene's Thrillers and the 1930s* Brian Diemert examines the first and most prolific phase of Graham Greene's career demonstrating the close relationship between Greene's fiction and the political economic social and literary contexts of the period Situating Greene alongside other young writers who responded to the worsening political climate of the 1930s by promoting social and political reform Diemert argues that Greene believed literature could not be divorced from its social and political milieu and saw popular forms of writing as the best way to inform a wide audience

**The Special Branch** LeRoy Panek, 1981 The author has chosen seventeen of the most important or representative British spy novelists to write about He presents some basic literary analysis and criticism trying both to place them in historical perspective and to describe and analyze the content and form of their fiction **A Preface to Greene** Cedric, M.A. Ph.D. (Professor) Watts, 2014-09-25 Lively informed and thorough this survey of the life and works of Graham Greene opens with a biographical account setting the writer in context of his times and describing and exploring the influences tensions and contradictions that occur throughout his work The second half of the book devotes itself to the art of Greene discussing his writing techniques recurring themes and imaginative preoccupations Within this section thorough critical analyses are given of three works Brighton Rock The Power and the Glory and the film The Third Man The book concludes with a reference section which comprises a gazeteer a biographical list and a bibliography Suggestions for further reading and a list of films encourage the student to explore the works of Greene more widely Orient Express Graham Greene, 2018-05-15 Greene's sharply often incisively etched novel of the interlocked fates of unwary strangers on a train from Belgium to Constantinople The New York Times The Orient Express has embarked from Ostend for a three day journey to Cologne Vienna and Constantinople The passenger list includes a Jewish trader from London with business interests in Turkey and a score to settle a vulnerable chorus girl on her last legs a boozy and spiteful journalist who's found an unrequited love in her paid companion and her latest scoop in second class a Serbian dissident in disguise on his way to lead a revolution and a murderer on the run looking for a getaway As the train hurtles across Europe the fates of everyone on board will collide long before the Orient Express rushes headlong to its final destination Originally published in the UK as *Stamboul Train* in 1932 Graham Greene's novel has movement variety interest taken on the surface it is an interesting and entertaining story of adventure penetrated through and through with the consciousness of the on rushing train with that curious sense of the temporary suspension of one's ordinary existence which comes to many on ship or train The New York

Times *A Study in Greene* Bernard Bergonzi,2006-09-07 Bernard Bergonzi has been reading Graham Greene for many years he still possesses the original edition of *The End of the Affair* that he bought when it was published in 1951 After so much recent attention to Greene's life he believes it is time to return to his writings in this critical study Bergonzi makes a close examination of the language and structure of Greene's novels and traces the obsessive motifs that recur throughout his long career Most earlier criticism was written while Greene was still alive and working and was to some extent provisional as the final shape of his work was not yet apparent In this book Bergonzi is able to take a view of Greene's whole career as a novelist which extended from 1929 to 1988 He believes that Greene's earlier work was his best combining melodrama realism and poetry with *Brighton Rock* published in 1938 a moral fable that draws on crime fiction and Jacobean tragedy as the masterpiece The novels that Greene published after the 1950s were very professional examples of skilful story telling but represented a decline from this high level of achievement Bergonzi challenges assumptions about the nature of Greene's debt to cinema and attempts to clarify the complexities and contradictions of his religious ideas Although this book engages with questions that arise in academic discussions of Greene it is written with general readers in mind **Graham Greene**

Michael G. Brennan,2010-03-18 In this significant rereading of Graham Greene's writing career Michael Brennan explores the impact of major issues of Catholic faith and doubt on his work particularly in relation to his portrayal of secular love and physical desire and examines the religious and secular issues and plots involving trust betrayal love and despair Although Greene's female characters have often been underestimated Brennan argues that while sometimes abstract symbolic and two dimensional these figures often prove central to an understanding of the moral personal and spiritual dilemmas of his male characters Finally he reveals how Greene was one of the most generically ambitious writers of the twentieth century experimenting with established forms but also believing that the career of a successful novelist should incorporate a great diversity of other categories of writing Offering a new and original perspective on the reading of Greene's literary works and their importance to English twentieth century fiction this will be of interest to anyone studying Greene **Graham Greene**

*Dangerous Edges of Graham Greene* Dermot Gilvary,Darren J. N. Middleton,2011-11-17 Informative broad ranging this title sheds new light on the life and literary art of one of the last century's most celebrated authors The first volume to be authorized by the Graham Greene Birthplace Trust *Dangerous Edges of Graham Greene* brings together writers journalists and scholars to investigate as well as to assess Greene's prolific oeuvre and intense personal interests Here the reader may explore everything from Greene's Vienna at the time of the filming of *The Third Man* to his sometimes fraught relationship with Evelyn Waugh from Greene's unconventional fictional treatment of women to his believing skepticism While Greene often informed friends that a ruling passion gives to a shelf of novels the unity of a system critics of his literary art have found it extraordinarily difficult to define the content of this ruling passion Perhaps this is because Greene's own character

seems so paradoxical ironic even Moreover in believing that sin contains within itself the seeds of saintliness he consistently loiters on what Robert Browning calls the dangerous edge of things In exploring this dangerous edge this book covers the full breadth of Greene s life and literary career

Schwarzer,2004-03 Although a few among us are intrepid architectural tourists visiting buildings and landscapes our cameras at the ready most of us experience architecture through the windshield of a moving vehicle the architectural

experience reduced to a blurry and momentary drive by And the rest of our architectural tourism is through the images of cameras movies and television programs that is through the lens of another s eye Architectural hisotrian Mitchell Schwarzer calls this new mediated architectural experience the zoomscape In this thought provoking book he argues that the perception of architecture has been fundamentally altered by the technologies of transportation and the camera we now look at buildings neighborhoods cities and even entire continents as we ride in trains cars and planes and or as we view photographs movies and television Zoomscape shows how we now perceive buildings and places at high speeds across great distances through edited and multiple reproductions Nowadays our views of the architectural landscape are modulated by the accelerator pedal and the remote control by studio production techniques and airplane flight paths Using examples from high art and popular culture from the novels of Don DeLillo to the opening credits of The Sopranos Mitchell Schwarzer shows that the zoomscape has brought about unprecedented and often marvelous new ways of perceiving the built environment
