Schneider, 2014-04-01 Corporate reform is not reform at all Instead it is the systematic destruction of the foundational American institution of public education The primary motivation behind this destruction is greed Public education in America is worth almost a trillion dollars a year Whereas American public education is a

democratic institution its destruction is being choreographed by a few wealthy well positioned individuals and organizations This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school After the Rebellion Sekou M. Education Steven Ashby,Robert Bruno,2016-11-04 In reaction to the changes imposed on public schools across the country in the name of education reform the Chicago Teachers Union redefined its traditional role and waged a multidimensional fight that produced a community wide school strike and transformed the scope of collective bargaining into arenas that few labor relations experts thought possible Using interviews first person accounts participant observation union documents and media reports Steven K Ashby and Robert Bruno tell the story of the 2012 strike that shut down the Chicago school system for seven days A Fight for the Soul of Public Education takes into account two overlapping parallel and equally important stories One is a grassroots story of worker activism told from the perspective of rank and file union members and their community supporters Ashby and Bruno provide a detailed account of how the strike became an international cause when other teachers unions had largely surrendered to corporate driven education reform The second story describes the role of

state and national politics in imposing educational governance changes on public schools and draconian limitations on union bargaining rights. It includes a detailed account of the actual bargaining process revealing the mundane and the transcendental strategies of both school board and union representatives.

Common Core Dilemma—Who Owns Our Schools? Mercedes K. Schneider, 2015. In her new book, bestselling author Mercedes Schneider provides little known details about the history of the Common Core State Standards. She lifts the veil on how the Common Core was developed, who was present in the back room, the push to copyright it so that test makers could profit, and the urgency for governors to sign commitments before the standards were even completed. CCSS is publicized as being a state led teacher developed approach guaranteed to ensure that all students are college and career ready. By the end of this eye opening book, readers will come to understand the CCSS and its attendant assessments as something very different, an education restricting profit, garnering opportunity, packaged as an education sounding sales pitch. Common Core Dilemma will appeal to readers across the political spectrum who want to better understand the role of corporations, nonprofits, big donors with strings attached, and the federal government in exercising control in our schools. Mercedes Schneider is the right person to take a close look at the controversies around the Common Core. She is not only a high school teacher but also holds a Ph.D. in research methods and statistics. No one digs deeper than she to understand the politics, money, and personalities behind big issues. Diane Ravitch, professor of education at New York University, historian of education, and bestselling author of *Reign of Error*. The Common Core state standards swept the nation in an educational coup d'état six years ago. The campaign was so swift that most Americans, indeed, most educators had never even heard of the standards when they were adopted. Mercedes Schneider has become the nation's leading detective investigating this whodunnit mystery, and here she tells the tale from the beginning. Anthony Cody, educator, writer, and public speaker.

World Yearbook of Education 2016 Antoni Verger, Christopher Lubienski, Gita Steiner-Khamsi, 2016-01-08. This latest volume in the World Yearbook of Education series examines the global education industry both in OECD countries as well as developing countries and presents the works of scholars based in different parts of the world who have significantly contributed to this area of research. Focusing on the areas of cross over in public private partnerships in education, WYBE 2016 critically examines the actors and factors that have propelled the global rise of the education industry. Split into three key sections, Part I explores how education agendas are shaped, Part II considers the private financing of education and the export of school improvements to professional consultancies, and Part III analyses new market niches such as low fee private schooling and for profit education provisions. The book draws upon case studies of many global organizations including The Bill and Melinda Gates Foundation, Pearson, Affordable Learning Fund, Bridge International Academies, Teach for All, Omega Schools Co. edited by three internationally renowned scholars: Antoni Verger, Christopher Lubienski, and Gita Steiner-Khamsi. WYBE 2016 will be a valuable resource for researchers, graduates, and policy makers who are interested in the global education industry. Convention on the Organisation

Championing Child Care Sally S. Cohen, 2001-10-25 Why has child care legislation developed along its present course How did the political players influence lawmakers What do the politics of child care legislation over the past thirty years indicate for the future Based on more than one hundred interviews with legislators and executive branch officials archival research and secondary sources this book looks at the politics behind child care legislation rather than analyzing child care as a work and family issue Identifying key junctures at which major child care bills were introduced and debated 1971 1990 and 1996 Sally Cohen examines the politics surrounding each of these events and identifies the political structures and negotiations that evolved in the intervening years In addition Cohen looks at the impact the election of President Clinton has

had on child care policymaking and how child care legislation became part of other issues including welfare reform crime prevention school readiness and tax policy revisions *Stand for Life* John Ensor, Scott Klusendorf, 2022-05-03 Of the 1.2 million abortions performed annually in the U.S. more than 500,000 are performed on college-aged women. They make up 44% of all abortions in the country. So it is not surprising that there is a large thriving network of pro-life groups on college campuses. These groups serve to advocate for pro-life and educate other young people about the physical, emotional, psychological, and spiritual effects that abortion has on women. While there are online guides and booklets on the topic, there are currently very few, if any, books that are specifically geared for use by young advocates for this cause. Now there is *Stand for Life*, a manual that addresses tough questions in a format that is concise and straightforward. Topics include: Defending your pro-life views in five minutes or less; Understanding the sanctity of human life; Simplifying the abortion debate; Developing a Christian response to abortion; Debate: keeping cool under fire; Q&As about such thorny issues as unsafe abortions, abortion when mothers' lives are at risk, my body, my choice, and more.

Dark Money and the Politics of School Privatization Maurice T. Cunningham, 2021-10-08 This book goes deep behind the scenes of school privatization campaigns to expose the complex networks of funding that sustain these efforts, often hidden from the view of the public. Using the example of a 2016 Massachusetts charter school referendum, Cunningham shows how wealthy individuals support charter school expansion through so-called social welfare organizations, thereby obscuring the true sources of funding while influencing major public policy votes. With vast wealth and a political agenda, foundations have helped to reshape the reform landscape in urban education. *Congressional Record* United States Congress, 1996
