Waverley Novels Walter Scott,1894 Film Landscapes Graeme Harper,Jonathan Rayner,2014-08-26 This book brings together critical and theoretical essays examining the connections between films and landscapes It showcases the work of established and emerging academics whose research probes the complex relationships between moving images and the filmed environment and accounts for the impactful effects of viewing lived spaces and human places on screen The essays in this collection actively engage with examples of contemporary popular and art cinema genre films and auteur canon historical films propaganda documentary and animation in their explorations of the meanings with which filmed landscapes are endowed and invested The breadth of the study is matched by the depth of the interest with writers here approaching the

subject of film landscapes as critics as film practitioners and as teachers of film studies and film making Film Landscapes gives voice to a great many ideas and includes coverage of a great many films but it also points forward to ways in which we might revisit discussions of the environments of film and consider ways in which history and creativity critical understanding and the interaction of human beings and place could be reconsidered and revised to produce new insights [A Horror and a Beauty: The World of Peter Ackroyd's London Novels](#) Petr Chalupský,2016-02-01 Peter Ackroyd is one of the foremost contemporary British London writers He focuses on the capital its history development and identity both in his fiction and non fiction The London of his novels is thus a highly idiosyncratic construct which reflects and derives from its author s ideas about the actual city s nature as well as his concept of the English literary sensibility in general as he outlines them in his lectures and historical and literary studies It is an exceptionally heterogeneous city of enormous diversity and richness of human experience moods and emotion of actions and events and also of the tools through which these are re presented and reenacted According to Ackroyd this heterogeneity mostly originates outside the sites and domains of the established or mainstream cultural production and social norms and conventions particularly in occult practices subversive acts and the plotting of radical individuals or groups criminal and fraudulent activities of various kinds dubious scientific experiments and the popular dramatic forms of ritual and entertainment whose permanent encounters with and contesting of the officially approved and prescribed forms instigate the city s vitalising energy for dynamic change and spiritual renewal This book presents the world of Ackroyd s London novels as a distinct chronotope determined by specific spatial and temporal properties and their mutual interconnectedness Although such a concept of urban space in its essence defies categorisation the book is thematically organised around six defining aspects of the city as Ackroyd identifies them the relationship between its past and present its uncanny manifestations its felonious tendencies its inhabitants psychogeographic and antiquarian strategies its theatricality and its inherently literary character **Hang 'Em High** Bob Herzberg,2013-09-11 For more than a century the Western film has proven to be an enduring genre At the dawn of the 20th century in the same years that The Great Train Robbery begat a film genre Owen Wister wrote The Virginian which began a new literary genre From the beginning both literature and film would usually perpetuate the myth of the Old West as a place where justice always triumphed and all concerned except the villains pursued the Law The facts however reflect abuses of due process lynch mobs and hired gunslingers rather than lawmen regularly pursued lawbreakers vengeance rather than justice was often employed and even in courts of law justice didn t always prevail Some films and novels bucked this trend however This book discusses the many Western films as well as the novels they are based on that illustrate distortions of the law in the Old West and the many ways most of them marked by vengeance in which its characters pursued justice *Robert Louis Stevenson and the Art of Collaboration* Murfin Audrey Murfin,2019-08-05 Explores Robert Louis Stevenson s collaborative processContains new readings of thirteen works by Robert Louis Stevenson including several rarely discussedSheds light on connections between

authorship celebrity the literary marketplace and the creative processSupported by extensive manuscript researchThis book investigates Stevenson s literary collaborations with family and friends as he travelled Scotland America and the Pacific With critical readings of both major and minor Stevenson texts supported and contextualised by unpublished manuscripts and letters by both Stevenson and those he wrote with this book argues that Stevenson s writings are both a product of and a meditation on collaborative writing Stevenson s self reflective body of work reimagines late Victorian authorship by examining the ways that authors choose material negotiate the marketplace and ultimately maintain power over their own words or let that power go The Black Border and Fugitive Narration in Black American Literature Paula von

Novels Between 1740-1798 Irene Mary Stanley Parkell, 1923 *Class in Turn-of-the-Century Novels of Gissing, James, Hardy and Wells* Christine DeVine, 2017-11-30 This book argues that due to political and ideological shifts in the last decades of the nineteenth century a time when the class system in England was in a state of flux a new depiction of social class was possible in the English novel Late century writers such as Gissing James Hardy and Wells question the middle class Victorian views of class that had dominated the novel for decades By disrupting traditional novelistic conventions these writers reveal the ideology of the historical moment in which those conventions obtained thereby questioning the naturalness of class assumed by earlier middle class Victorian writers The book contextualizes novels by these writers within their historical moment with reference to relevant maps journalism artwork or photography and specific historical events It illuminates the relationship between fiction and history in late nineteenth and early twentieth century fiction and especially the relationship between changing depictions of class and the development of realism Examining the nineteenth century English novel through the lens of social class allows the twenty first century critic and student not only to understand the issues at stake in much Victorian fiction but also to recognize powerful present day vestiges of this social class system
