Slovenia World Bank,1999 **Eu's Eastward Enlargement, The: Central And Eastern Europe's Strategies For Development** Yoji Koyama,2014-12-09 Owing to the global financial crisis of 2007 2009 and subsequently the Eurozone crisis the accession of Central and Eastern European countries to the European Union and the Eurozone has not been an easy one The EU s Eastward Enlargement analyses challenges that these countries currently face in their pursuit of economic self reliance Covering a period from the second half of the 1980s to the present Yoji Koyama provides unique and objective analyses of the European Union and the Euro system from a non European s perspective He offers a detailed reexamination of the fundamental problems of the European Union which in turn have affected the autonomous development of countries such as Poland the former Yugoslavia Albania and the Baltic States This book is a useful addition to the scholarship available on the Euro system and Central and Eastern European countries It will help readers gain a more holistic understanding of the ongoing Eurozone crisis and the future of the Eurozone project **Welfare State Transformation in the Yugoslav**

Successor States Marija Stambolieva,2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions Comparative Economics in a Transforming World Economy John Barkley Rosser,2004 The second edition of an innovative undergraduate textbook in Comparative Economic Systems that goes beyond the traditional dichotomies *Small States and the European Union* Lino Briguglio,2016-06-10 The Economies of European Union Small Member and Candidate States deals with the small

states and candidate states of the EU with a focus on their economic structure and performance and the impact of EU membership past actual and potential on the economy The small states to be covered are those with a population of 3 million or less namely Cyprus Estonia Iceland Latvia Lithuania Luxembourg Malta Macedonia Montenegro and Slovenia This title adds to the literature on the EU on regional integration generally and on small states It delves into the special constraints of small economic size and examines why and how the small states of Europe manage to compete albeit not without difficulty with the larger states in the block where free trade prevails The book answers the following research questions What are the special economic development constraints faced by the small states of the EU What policy options have been used by or are available to these small states to address these constraints How can the economic resilience and competitiveness of these states be enhanced Has EU membership been mostly advantageous for these small states What are the economic prospects for these states as EU member states The book is aimed primarily for students of EU affairs and of regional integration in general It will also be useful for students of subjects relating to small states It may also appeal to policy makers of small states and to officials of international and regional organisations that have a constituency that includes small states

Banking and Financial Stability in Central Europe David Green, Karl Petrick, 2002-04-26 this book would be suited to lawyers and non lawyers alike In addition it provides an interesting look at the EU banking system and the systems of Central and Eastern European countries Ellie Palmer Journal of International Banking Law and Regulation The eastwards expansion of the European Union is one of the most explosive economic and political issues of the early 21st century Economic and financial stability combined with rising prosperity in the applicant countries are increasingly seen as necessary preconditions for European Union membership This authoritative volume written by scholars and practitioners from Central and Western Europe and the United States confronts the issues involved in three of the countries most likely to be successful applicants to the EU the Czech Republic Hungary and Slovenia A spotlight is turned on the banking and financial industries as they are crucial to the achievement of economic stability The blend of expertise deployed which draws on in depth knowledge and extensive experience in central banking financial and commercial law business practical policy making and economic analysis ensures that this book is timely relevant and insightful The authors suggest that the role of the state in both creating and maintaining an effective financial sector is central Furthermore they argue that well regulated commercial banks and strategic foreign investors are a must as in practice the attempt to skip straight to modern capital markets has been ruinous This accessibly written volume will be of interest to students and scholars of economics finance law political science the sociology of economic life and European studies Winners and Losers of EU Integration Helena Tang, 2000-01-01 The contributors include researchers from the ten CEECs as well as from current EU member countries BOOK JACKET

Environmental Finance and Development Sanja Tišma, Ana-Maria Boromisa, Ana Pavicic Kaselj, 2012 This book presents an overview of five European national environmental strategies and action plans with a strong focus on

environmental financing There is particular focus on the water waste and air sectors but these are analyzed in relation to other environmental protection measures at the national and regional level including agriculture forestry regional development energy and transport This analysis of environmental financing encompasses policy in three EU member states Bulgaria Romania and Slovenia and two states at *Internationalization in Central and Eastern Europe* Marin Alexandrov Marinov, 2018-04-27 This title was first published in 2002 This is a unique volume among the existing variety of publications on foreign direct investment FDI in Central and Eastern Europe CEE because it focuses on the internationalization process taking place there It addresses the rapid changes of the business climate in the region that have led to intensive internationalization of companies businesses and national economies Existing FDI books have mostly taken the perspective of attracting inward FDI flows missing the aspect of FDI outflows from CEE countries While foreign investors face the specific context of a region that poses new requirements to their internationalization strategies approaches and practices domestic companies must strive to make their businesses international Consequently the book presents the features of internationalization in CEE from home and host company and country perspectives providing a fresh perspective on this major economic problem

A Guide to the World Bank, 2003 The World Bank Group works in more than 100 developing economies and is one of the world's largest sources of development assistance In 2002 the institution provided US 19.5 billion in loans to its client countries This guide reviews the organisation's history objectives and operations and looks at the five institutions that make up the World Bank Group the International Bank for Reconstruction and Development IBRD the International Development Association IDA the International Finance Corporation IFC the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID

Czech Experience of Economic Transition and EU Accession Processes Eva Klvačová, Vysoká škola ekonomická v Praze. Institut integrace ČR do evropské a světové ekonomiky, 2005

Progress Toward the Unification of Europe Helena Tang, 2000-01-01 Ten countries of Central and Eastern Europe and the Baltic CEECs are candidates to join an enlarged European Union EU in the years to come The ten are Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Romania the Slovak Republic and Slovenia This enlargement will bring many opportunities to the both the EU and the candidate countries For the EU it will bring enhanced weight and influence For the candidate countries it should mean an improvement of their long term growth prospects by providing access to an open single market The accession process is providing the impetus for the acceleration of much needed economic political institutional and social reforms in some of the CEECs as they strive to meet EU membership requirements The key for the CEECs is to achieve sustained high long term growth in order to meet their ultimate objective of accession The EU has already concluded agreements with the CEECs which went beyond the narrowly conceived ideas of market access to include the alignment of the CEEC economic system with that of the EU's This report sets out the future agenda for the successful integration of the CEECs into an enlarged EU The first priority is for each

country to complete its own process of transition to a free market democratic state In short this will mean that many will have to address their fiscal challenges and ensure fiscal sustainability the challenge of global financial integration opening of their capital accounts the strengthening of their administrative capacity the reduction of unemployment and the promotion of social inclusion Pension Reform and the Development of Pension Systems Emily S. Andrews, 2006 Formal pension systems are an important means of reducing poverty among the aged In recent years however pension reform has become a pressing matter as demographic aging poor administration early retirement and unaffordable benefits have strained pension balances and overall public finances Pension systems have become a source of macroeconomic instability a constraint to economic growth and an ineffective and or inequitable provider of retirement income The Accession Story George Vassiliou, 2007-04-19 This book is a useful tool to anyone who is interested in the enlargement of the E U to the citizens of the ten acceded countries who would like to know how they managed to accede and also to officials of the new candidate countries who are preparing their country for accession The Accession Story provides a unique overview of the enlargement of the E U from 15 to 25 countries It consists of two main parts In the first part the then Director General of D G Enlargement Mr Eneko Landaburu and Denmark s Permanent Representative in the E U Ambassador Poul Christoffersen provides a comprehensive picture of the enlargement process from the beginning to the end from the Brussels point of view The second part written by the ten people responsible for negotiating the accession of their countries presents the challenges problems and difficulties each one of the ten countries had to overcome in order to succeed to adopt the *acquis communautaire* and be accepted into the E U
