cars of Citroen but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s, expansion cites less well-known names of Citroen's French engineering design and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others to give a full picture of Citroen heritage.

**The Social Construction of Sexuality and Perversion** A.

Beckmann, 2009-09-29 This book deconstructs the pathologizing category of sadomasochism in order to account for the lived realities of consensual SM play, emphasizing the connection between the corporeal and the political in contemporary consumer cultures. It discusses the homogenization of desire and ownership and use of body and sexual ethics.

**The Routledge Handbook of the Body** Bryan Turner, 2012-07-24 In the last three decades, the human body has gained increasing prominence in contemporary political debates and it has become a central topic of modern social sciences and humanities. *Body Image, Eating, and Weight* Massimo Cuzzolaro, Secondo Fassino, 2018-11-03 This book equips readers with the knowledge required to improve diagnosis and treatment and to implement integrated prevention programs in patients with eating and weight disorders. It does so by providing a comprehensive up-to-date review of research findings and theoretical assumptions concerning the interface and interactions between body image and such disorders as anorexia nervosa, bulimia nervosa, binge eating disorder, other specified feeding and eating disorders, orthorexia nervosa, overweight and obesity. After consideration of issues of definition and classification, the opening part of the book examines the concept of body image from a variety of viewpoints. A series of chapters are then devoted to the assessment of the multidimensional construct: body image to dysmorphophobia, body dysmorphic disorder and to muscle dysmorphia. The third part discusses body image in people suffering from different eating disorders and/or overweight or obesity, and two final chapters focus on body image in the integrated prevention of eating disorders and obesity and cultural differences regarding body image. The book will be of interest to all health professionals who work in the fields of psychiatry, clinical psychology, eating disorders, obesity, body image, adolescence, public health and prevention.

*Virtual Reality in the Assessment, Understanding and Treatment of Mental Health Disorders* Giuseppe Riva, Silvia Serino, 2021-01-06 In the computer sciences, virtual reality (VR) is usually described as a set of fancy technologies. However, in medicine and neuroscience, VR is instead defined as an advanced form of human-computer interface that allows the user to interact with and become present in a computer-generated environment. The sense of presence offered by VR makes it a powerful tool for personal change because it offers a world where the individual can stay and live a specific

experience For this reason the use of VR in mental health shows promise different types of research support its clinical efficacy for conditions including anxiety disorders stress related disorders obesity and eating disorders pain management addiction and schizophrenia However more research is needed to transform VR according to a clinical standard for mental health This Special Issue aims to present the most recent advances in the mental health applications of VR as well as their implications for future patient care
