ensembles and orchestras The book highlights over 250 musical settings of Blake's *The Lamb* making it the most popular choice among composers while other well loved poems like *The Tyger* and *Spring* also appear frequently Interestingly it also explores Blake's influence beyond the English speaking world particularly in post World War II compositions by Scandinavian Russian and European composers Fitch's bibliography not only provides a rich resource for scholars musicians and Blake enthusiasts but also charts a cultural shift As musical tastes evolved so too did the appreciation for Blake's poetic depth with his works being embraced by an ever widening range of composers across the globe This bibliography stands as an essential guide to the diverse and evolving relationship between Blake's visionary poetry and the world of music This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990
