Sorcerer As Apprentice Stalin As Commissar Of Nationalities 1917 1924:

The Sorcerer as Apprentice Stephen Blank,1994-10-30 A rich history based on original research about how current nationality and ethnic problems originated with the Narkomnats and Stalin as its chief **The Russian Revolution and Civil War 1917-1921** Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state Yiddish and the Creation of Soviet Jewish Culture David Shneer,2004-02-13 Yiddish and the Creation of Soviet Jewish Culture gives voice to the activists empowered by the state to create a Soviet Jewish national culture These activists were striving for a national revolution to create a new culture for Jews to identify as Jews on new secular Soviet terms This book explores the ways in which Jews were part of not apart from both the Soviet system and Jewish history Soviet Jewish culture worked within contemporary Jewish national and cultural trends and simultaneously participated in the larger project of propagating the Soviet state and ideology Soviet Jewish activists were not nationalists or Soviets but both at once David Shneer addresses some of the painful truths about Jews own implication and imbrication in the Soviet system and inserts their role in twentieth century Jewish culture into the narrative of Jewish history **Russian Colonization and the Genesis of Kazak National Consciousness** S. Sabol,2003-03-13 This study concentrates upon the socio political and nationalist views of three influential representatives of the early twentieth century Kazak intelligentsia Alikhan Bokeilhanov Akhmet Baitursynov and Mukhamedzhan Seralin The resulting discourse on literature education and politics shaped the Kazak nationalist movement before 1920 This study draws on the published works of the Kazak intelligentsia the periodicals Ai qap 1911 1915 and Kazak 1913 1918 and archival records from the Central State Archives of the Republic of Kazakhstan **Historical Dictionary of the Russian Civil Wars, 1916-1926** Jonathan D. Smele,2015-11-19 This book is a detailed reference of the twentieth century struggles that were waged across and beyond the decaying Russian Empire at the end of the First World War as tsarism and democratic alternatives to it collapsed and the world s first Communist state the Union of Soviet Socialist Republics was born At the same time it is a necessary corrective to studies that have viewed events of the time as a unitary Russian Civil War that sprang from the Russian Revolution of 1917 Instead it contributes to the ongoing process of integrating the civil wars into a continuum of crises that wracked the Russian Empire and its would be successor states

across a prolonged period The Historical Dictionary of the Russian Civil Wars 1916 1926 covers the history of this period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has almost 2 000 cross referenced entries on individuals political and governmental institutions and political parties and military formations and concepts as well as religion art film propaganda uniforms and weaponry This book is an excellent access point for students researchers and anyone wanting to know more about the Russian Civil War **Does Russian Democracy Have a Future?** ,1994 Across the Revolutionary Divide Theodore R. Weeks,2011-06-24 Across the Revolutionary Divide Russia and the USSR 1861 1945 offers a broad interpretive account of Russian history from the emancipation of the serfs to the end of World War II Provides a coherent overview of Russia s development from 1861 through to 1945 Reflects the latest scholarship by taking a thematic approach to Russian history and bridging the revolutionary divide of 1917 Covers political economic cultural and everyday life issues during a period of major changes in Russian history Addresses throughout the diversity of national groups cultures and religions in the Russian Empire and USSR Shows how the radical policies adopted after 1917 both changed Russia and perpetuated an economic and political rigidity that continues to influence modern society *Ethnic Relations in Post-Soviet Russia* Andrew Foxall,2014-10-03 While the collapse of communism in Russia was relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political re structuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space *Studies in Kurdish History* Djene Rhys Bajalan,Sara Zandi Karimi,2017-07-06 Recent events in the Middle East have propelled the once marginalized Kurdish community to the centre of regional and indeed world affairs The growing significance of the Kurds in the politics of the Middle East has lead to greater interest amongst both academics and policy makers regarding the community s culture politics and history This current volume seeks address this growing interest by presenting a selection of articles from leading experts on the history of the Kurds These articles scrutinize a variety of subjects which provide important context to today s Kurdish question It includes contributions which contextualize the evolution of a distinctive Kurdish identity and culture Furthermore it includes works which seek to examine the impact of the gradual transformation of state power in the Middle East more precisely the breakdown of imperial orders and the concurrent emergence of the modern nation state on the relationship between the Kurds and the central governments under which they lived during the nineteenth and early twentieth century In doing so this volume will be of interest to all those wishing to gain a deeper historical understand of the present day Kurdish affairs This book was published as a special issue of Iranian Studies *Creating Nationality in Central Europe, 1880-1950* Tomasz Kamusella,James Bjork,Timothy Wilson,Anna

Novikov,2016-04-14 In the immediate aftermath of the First World War Upper Silesia was the site of the largest formal exercise in self determination in European history the 1921 Plebiscite This asked the inhabitants of Europe s second largest industrial region the deceptively straightforward question of whether they preferred to be Germans or Poles but spectacularly failed to clarify their national identity demonstrating instead the strength of transnational regionalist and sub national allegiances and of allegiances other than nationality such as religion As such Upper Silesia which was partitioned and re partitioned between 1922 and 1945 and subjected to Czechization Germanization Polonization forced emigration expulsion and extermination illustrates the limits of nation building projects and nation building narratives imposed from outside This book explores a range of topics related to nationality issues in Upper Silesia putting forward the results of extensive new research It highlights the flaws at the heart of attempts to shape Europe as homogenously national polities and compares the fate of Upper Silesia with the many other European regions where similar problems occurred
