Gilbert, 2020-04-01 The rash of bullying incidents within schools universities and workplaces has prompted a public outcry and a call to action To address the growing problem of interpersonal violence schools have engaged in anti bullying rallies businesses have enacted civility policies states have passed legislation and efforts have been made to educate individuals on what constitutes good behavior Increasingly institutions are realizing from a cost benefit perspective that a hurtful environment can negatively impact their bottom line Correspondingly the rising number of climate surveys to address bullying at work is a testament to the importance of this topic and its potential negative impact Colleges and universities confirm the need to create a more welcoming culture as reflected in the current dialogue to promote civility Publisher offerings in business ethics are inadequate to address this issue as they focus on the importance of social responsibility and the fallout from moral turpitude There is a pressing need for materials that will educate students on civil concepts and provide them with applied learning Institutions of higher education would like to inform students about bullying its ramifications and how it can be avoided but a compendium of related exercises is in most cases non existent To solidify student learning about positive citizenship an established author and anti bullying activist has proposed *How to Transform Workplace Bullies into Allies* This unique groundbreaking text will provide hands on experiential exercises that will engage students with the material and create a multi dimensional focus to enable concept retention Considered a hallmark of applied education learning by doing will be this book s primary emphasis Exercises are designed to sharpen critical thinking immerse students in real world dilemmas and provide them with tools for conflict resolution The emotional intelligence promoted by working through in text scenarios is a soughtafter employee trait one that is desired by classmates and career centers alike Unfortunately people skills at work have long been ignored in traditional college curricula As a result schools are creating graduates who possess technical know how but not the skill set to effectively navigate personal encounters The soft skills of people savvy which have been deemed crucial to employee success are in large part absent from college offerings By navigating carefully constructed scenarios web quests learning modules and teachable moments readers will develop a keen awareness of what it takes to be a respectful person Moreover they will gain expertise in what has been deemed a critical skill set by many organizations including the Society for Human Resource Management Exercises to strengthen incivility awareness are designed not only to prevent potential conflict but to create change agents within the business arena Completion of this workbook will provide people with a competitive advantage and their institution and workplace with a more courteous populace *Nursing Leadership* John Daly, Sandra Speedy, Debra Jackson, 2003-11-01 *Nursing Leadership*
