Soul Space:

Soul Space Jerome Daley, 2008-11-13 So often there is a gap between the fulfilling life we long for and the frenzied life we live We know the frustration all too well but we long for something more This book beckons readers to that place where God breaks in and restores meaning to the mundane

Forty Years of Sacred Space Dr. Patrick Donovan, 2013-11-01 After forty three years in the sacred space of caring for patients Dr Donovan shares his observations and thoughts about illness and healing He believes illness serves us by acting as life's transformative process As such the journey through our illness may be precisely the very experiential journey we need to realize our healing and ourselves more fully After all we don't get cancer Cancer like any illness is a process We are the cancer we manifest Our cancer arises out of our own tissues and cellular make up To rid our self of our cancer is to rid our self of a part of our self Instead of thinking about illness as something we get something separate from ourselves needing to be removed or defeated Dr Donovan thinks we might well do better viewing our illness as a transformational journey that must be undertaken and completed for our healing to emerge We can't get rid of our selves but we can transform ourselves and our illness provides us with that opportunity It allows us our healing

Rudolf Steiner Colin Wilson, 2019-02-21 Of all the important thinkers of the twentieth century Rudolf Steiner 1861-1925 is perhaps the most difficult to come to grips with For the unprepared reader his work presents a series of formidable obstacles from the dauntingly abstract style to the often bizarre pronouncements on the nature of man and his cosmic destiny And yet Steiner was perhaps the most influential and charismatic occult philosopher of his generation and the movement he launched Anthroposophy with its educational agricultural and artistic applications still has many thousands of followers worldwide No one interested in esoteric thought can ignore Steiner but until now there has been no genuinely accessible introduction to his ideas This lucid and sympathetic account describes Steiner's development from shy scholar to the international figurehead of Anthroposophy his break with Madame Blavatsky's Theosophy his struggles to find a voice and the essence of his insights into the supersensible world

The Pearly Gates of Cyberspace Margaret Wertheim, 2000 Cyberspace may seem an unlikely gateway for the soul but as science commentator Wertheim argues in this wonderfully provocative book cyberspace has in recent years become a repository for immense spiritual yearning

Ideal Embodiment Angelica Nuzzo, 2008-10-28 Angelica Nuzzo offers a comprehensive reconstruction of Kant's theory of sensibility in his three Critiques By introducing the notion of transcendental embodiment Nuzzo proposes a new understanding of Kant's views on science nature morality and art She shows that the issue of human embodiment is coherently addressed and key to comprehending vexing issues in Kant's work as a whole In this penetrating book Nuzzo enters new terrain and takes on questions Kant struggled with How does a body that feels pleasure and pain desire anger and fear understand and experience reason and strive toward knowledge What grounds the body's experience of art and beauty What kind of feeling is the feeling of being alive As she comes to grips with answers Nuzzo goes beyond Kant to revise

our view of embodiment and the essential conditions that make human experience possible **Rebirth: New Era of Three Realms** Ye Shang,2020-06-04 In the Immortal World a rather strange baby's immortal bone was removed by a mysterious man returning him to the human world He originally wanted to let him experience the suffering of reincarnation and become a nobody but he never would have thought that this act of kindness would shock the heavens the earth and the people Fighting against a group of devils for the sake of beauties traveling with lightning speed through the wind and rain his cultivation base was long and valiant his body proud and unyielding as he battled against the heaven's pride level experts Holding the Godkiller Axe in his hand splitting the heavens and splitting the earth causing the stars to tremble cultivating the power of primal chaos shaking both ancient and modern gods and ghosts to howl The Chronicles of the Mystic Alchemist 6 Wesley Wang,2024-07-05 *Our Unforming* Cindy S.
