Nonfiction Sound and Story for Film and Video Amy DeLouise, Cheryl Ottenritter, 2019-09-30 This book guides nonfiction storytellers in the art of creatively and strategically using sound to engage their audience and bring stories to life. Sound is half of film and video storytelling and yet its importance is often overlooked until a post production emergency arises. Written by two experienced creators, one a seasoned nonfiction producer/director with a background in music and one a sound designer who owns a well-regarded mix studio, this book teaches nonfiction producers, filmmakers, and branded content creators how to reimagine their storytelling by improving sound workflow from field to post. In addition to real world examples from the authors' own experiences, interviews with, and examples from industry professionals across many genres of nonfiction production are included throughout. Written in a conversational style, the book pinpoints practical topics and considerations like 360 video and viewer accessibility. As such, it is a vital point of reference for all nonfiction filmmakers, directors, and producers or anyone wanting to learn how to improve their storytelling. An accompanying Companion Website offers listening exercises, production sound layout diagrams, templates, and other resources. **Jumpstart! Grammar** Pie Corbett, Julia Strong, 2015-10-23 Fully updated to help teachers deal with the new 2016 Grammar Tests, this second edition presents a collection of simple to use multi-sensory games and activities that will jumpstart pupils' understanding of grammar in action. It includes coverage of the subjunctive and past progressive, selecting which tense is the most definite, identifying when a word is used as a subordinating conjunction, preposition, explaining how a comma can change meaning, and an increased emphasis on the passive. Jumpstart Grammar will prepare children for any grammar tests on the horizon in an engaging way so that they love playing with words and spinning sentences to make ideas dance. And of course they will be able to name the parts if that is what is required. Fun games will focus first on helping children hear the difference; various types of grammar can be followed by activities to help them understand what different effects you can create with grammar. Technical terms will only be introduced once the children have established what the various features can do, with a particular focus on those terms that really help children discuss what makes language coherent and effective. This indispensable practical book celebrates the joys of language and coherent expression of finding just the right words or phrases to express what you want to say. **Advertising by Design** Robin Landa, 2021-04-20 A real world introduction to advertising design and art direction, updated and revised for today's industry.
