Sound Of Murder:

The Sound of Murder William Fairchild, Grand Theatre Collection (University of Guelph), Marjorie Lister, London Little Theatre, 1959* **Sound in the American Horror Film** Jeffrey Bullins, 2024-07-11 The crack of thunder a blood curdling scream creaking doors or maybe complete silence Sounds such as these have helped frighten and startle horror movie audiences for close to a century Listen to a Universal classic like Dracula or Frankenstein and you will hear a very different soundtrack from contemporary horror films So how did we get from there to here What scared audiences then compared to now This examination of the horror film s soundtrack builds on film sound and genre scholarship to demonstrate how horror perhaps more than any other genre utilizes sound to manipulate audience response Beginning with the Universal pictures of the early 1930s and moving through the next nine decades it explores connections and contrasts throughout the genre s technical and creative evolution New enthusiasts or veteran fans of such varied films as The Mummy Cat People The Day the Earth Stood Still Psycho Halloween A Nightmare on Elm Street Scream The Conjuring Paranormal Activity and A Quiet Place will find plenty to explore and perhaps a new sonic appreciation within these pages **Sound effects** Laura Jayne Wright, 2023-06-27 This book shows that the sounds of the early modern stage do not only signify but are also significant Sounds are weighted with meaning offering a complex system of allusions Playwrights such as Jonson and Shakespeare developed increasingly experimental soundscapes from the storms of King Lear 1605 and Pericles 1607 to the explosive laboratory of The Alchemist 1610 Yet sound is dependent on the subjectivity of listeners this book is conscious of the complex relationship between sound as made and sound as heard Sound effects should not resound from scene to scene without examination any more than a pun can be reshaped in dialogue without acknowledgement of its shifting connotations This book listens to sound as a rhetorical device able to penetrate the ears and persuade the mind to influence and to affect
