Lama Mipam's Commentary to Nagarjuna's Stanza's for a Novice Monk, Together With, Tsong Khapa[']s Essence of the Ocean of Vinaya Mi-pham-rgya-mtsho ('Jam-mgon 'Ju),1978 Commentary on N g rjuna s r ma erak rik verse work on the code of discipline for Buddhist novices includes Tsong khapa s work on Buddhist monastic rules *Stanzas for a Novice Monk* Nāgārjuna,'Jam-mgon 'Ju Mi-pham-rgya-mtsho,2002-07-01 *Asceticism* Vincent L. Wimbush,Richard Valantasis,2002-05-23 From meditation and fasting to celibacy and anchoritism the ascetic impulse has been an enduring and complex phenomenon throughout history Offering a sweeping view of this elusive and controversial aspect of religious life and culture Asceticism looks at the ascetic impulse from a unique vantage point Cross cultural cross religious and multidisciplinary in nature these essays provide a broad historical and comparative perspective on asceticism a subject rarely studied outside the context of individual religious traditions The work represents the input of more than forty preeminent scholars in a wide range of fields and disciplines and analyzes asceticism from antiquity to the present in European Near Eastern African Asian and North American settings Asceticism is organized around four major themes that cut across religious traditions origins and meanings of asceticism which explores the motivations and impulses behind ascetic behaviors hermeneutics of asceticism which looks at texts and rhetorics and their presuppositions aesthetics of asceticism which documents responses evoked by ascetic impulses and practices as well as the arts of ascetic practices themselves and politics of asceticism which analyzes the power dynamics of asceticism especially as regards gender cultural and ethnic differences Critical responses to the major papers ensure the focus upon the themes and unify the discussion Two general addresses on broad philosophical and historical interpretive issues suggest the importance of the subject of asceticism for wide ranging but serious cultural critical discussions An Appendix Ascetica Miscellanea includes six short papers on provocative topics not related to the four major themes and a panel discussion on the practices and meanings of asceticism in contemporary religious life and culture A selected bibliography and an index are also included The only comprehensive reference work on asceticism with a multicultural multireligious and multidisciplinary perspective Asceticism offers a model not only for an understanding of a most important dimension of religious life but also for future interdisciplinary study in general *Mipham's Dialectics and the Debates on Emptiness* Karma Phuntsho,2005-03-31 This is an introduction to the Buddhist philosophy of Emptiness Useful for scholars of Tibetan studies and Buddhist philosophy Explores the theories of Emptiness in an easy narrative style This is a compelling account of Emptiness **Minding the Buddha's Business** Daniel Boucher,Shayne Clarke,2025-06-24 Colleagues and former students of Gregory Schopen honor his path breaking contributions to Buddhist studies with these articles on the early Mahayana the monastic codes and Buddhism s art historical and epigraphical remains This volume honors the profoundly transformative influence of Gregory Schopen s many contributions to Buddhist studies Eighteen articles by former students and colleagues focus on the areas of Schopen s most noteworthy influence the study of the

Mahayana particularly of its early sutra literature the study of Vinaya especially the narratives accompanying the rules for monks and nuns and the study of Buddhist epigraphy and art history Contributors demonstrate the ongoing significance of Schopen's scholarship including his very first article on the cult of the book in the early Mahayana published fifty years ago Schopen has repeatedly shown how the study of Buddhism has too often focused on scriptures and normative doctrines and not enough on the practical ideas and contexts that significantly impacted the lives of actual Buddhists He sought to reveal these lived concerns in the massive trove of Buddhist inscriptions which often expose the habits and ideas of the tradition's most prominent donors many of whom were monastics as well as the everyday concerns of monks and nuns whose views did not always dovetail with canonical sources Even in his treatment of canonical sources Schopen has shown that the standard portrait of a Buddhist monk or nun fails to match a careful reading of their law codes his work on the Mulasarvastivada vinaya has required scholars to substantially reimagine the legal and ritual obligations as well as the economic concerns that preoccupied the minds of Buddhist jurists Schopen has in essence brought the Buddha down to earth revealing that this is precisely where most Indian Buddhists encountered him The contributions in this celebratory volume reflect this legacy and Schopen's considerable impact on our understanding of Buddhists in India

Buddhist Learning and Textual Practice in Eighteenth-Century Lankan Monastic Culture Anne M. Blackburn, 2020-07-21 Anne Blackburn explores the emergence of a predominant Buddhist monastic culture in eighteenth century Sri Lanka while asking larger questions about the place of monasticism and education in the creation of religious and national traditions Her historical analysis of the Siyam Nikaya a monastic order responsible for innovations in Buddhist learning challenges the conventional view that a stable and monolithic Buddhism existed in South and Southeast Asia prior to the advent of British colonialism in the nineteenth century The rise of the Siyam Nikaya and the social reorganization that accompanied it offer important evidence of dynamic local traditions Blackburn supports this view with fresh readings of Buddhist texts and their links to social life beyond the monastery Comparing eighteenth century Sri Lankan Buddhist monastic education to medieval Christian and other contexts the author examines such issues as bilingual commentarial practice the relationship between clerical and popular religious cultures the place of preaching in the constitution of textual communities and the importance of public displays of learning to social prestige Blackburn draws upon indigenous historical narratives which she reads as rhetorical texts important to monastic politics and to the naturalization of particular attitudes

toward kingship and monasticism Moreover she questions both conventional views on traditional Theravadin Buddhism and the Buddhist modernism Protestant Buddhism said to characterize nineteenth century Sri Lanka This book provides not only a pioneering critique of post Orientalist scholarship on South Asia but also a resolution to the historiographic impasse created by post Orientalist readings of South Asian history
