Wars: Engaging the Heavens in End-Time Warfare Oluwadare Adebajo (author), 2021-03-11 Our world is hurtling towards a momentous climax The opposing hordes of darkness are fighting for their very lives with all the bitterness and defiance they can muster because they realize that the close of the age is upon them As they draw upon their last reserves of strength the methods and measures of warfare that the Church has known are being stretched thus the Church must be equipped with the knowledge of the kind of warfare this season calls us to and what weapons we have been provided with by heaven to rout the enemy and his minions Star Wars Engaging the Heavens in End time Warfare is a word in season that unpacks the counsel of God for believers to arise in the glory and power of Christ's ordination and release the judgement written upon all the enemies of God The author through this book unveils deep mysteries that are set to cause a major shift redefine spiritual warfare and recalibrate the church into alignment with her destiny as was determined before the fall of creation The book goes into the heart of the Father to download from the original blueprint of creation that mankind deviated from when Adam fell from glory heights It stirs and redirects the heart of the reader away from the activities of the old wineskin which are not rooted in the pursuit of kingdom purpose and destiny fulfilment to focused alignment with kingdom activities that fulfil destiny as originally intended by God

Gus and Duncan's Comprehensive Guide to Star Wars Collectibles Duncan Jenkins, Gus Lopez, 2008-11

The Soul's Upward Yearning Robert Spitzer, S.J., Ph.D., 2015-10-03 Western culture has been moving away from its Christian roots for several centuries but the turn from Christianity accelerated in the 20th century At the core of this decline is a loss of a sense of our own transcendence Scientific materialism has so seriously impacted our belief in human transcendence that many people find it difficult to believe in God and the human soul This anti transcendent perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also negatively impacted popular culture through the writings of Richard Dawkins Daniel Dennett and many others The warning signs of this loss of transcendence have been expressed by thinkers as diverse as Carl Jung psychiatrist Mircea Eliade historian of religion Gabriel Marcel philosopher C S Lewis and J R R Tolkien These warnings were validated by a 2004 study in the American Journal of Psychiatry which showed that the absence of religion alone was responsible for a marked increase in suicide rates sense of meaningless substance abuse separation from family and other psychiatric problems Thus the loss of transcendence is negatively affecting not only individuals sense of happiness dignity ideals virtues and destiny but also the culture Ironically the evidence for transcendence is greater today than in any other period in history The problem is this evidence has not been compiled and propagated Fr Spitzer's book provides a bright light in the midst of this cultural darkness by presenting both traditional and contemporary evidence for God and a transphysical soul from several major sources He also shows how human consciousness and intelligence is completely special and cannot be replicated by artificial intelligence or animal consciousness We are transcendent beings with souls capable of surviving bodily death self reflective beings aware of perfect truth love goodness and beauty We are beings with an unrestricted

capacity to know and create science law culture art music literature and so much more The evidence reveals that we have the dignity of being created in the very image of God and if we underestimate it we will undervalue one another underlive our lives and underachieve our destiny This work is the most comprehensive treatment of human transcendence available today
