Star Dragon:

Star Dragon Mike Brotherton, 2005-01-10 The SS Cygni probe sent back hours of video captured by the Biolathe AI but only a few minutes mattered the four minutes that showed a creature made of fire living moving dancing in the plasma fire of the double star s accretion disk A dragon made of star stuff so alien that only a human expedition to observe and perhaps capture it could truly understand them It s a perilous journey into the future however for SS Cygni is 245 light years from Earth and even though only two years subjective time will pass on board the Karamojo the crew will return to an Earth where five hundred years have passed Captain Lena Fang doesn t care she has made her life on her ship where her best friend is the ship s AI Samuel Fisher the contract exobiologist doesn t care either He is making the voyage of a lifetime and in the small world of the Karamojo he will have to live with the consequences of his obsessive quest for knowledge The rest of the small crew Axel Henderson the biosystems engineer Sylvia Devereaux the beautiful physical sciences expert and Phil Stearn the ship s jack of all trades have their own reasons for saying good bye to everyone they have ever known As the Biolathe AI said uncertain five hundred year round trips don t attract the most stable personalities but somehow they ll have to learn to get along with each other if they re to catch their dragon and come home again For at the end of the journey is the star dragon a creature of fire with a nuclear furnace for heart The crew of the Karamojo human and AI alike will risk everything to capture it and it will take all their technology all their skill and more courage than they knew they had to come home alive At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
