New, 2003-08-06 New offers an unconventionally structured overview of Canadian literature from Native American mythologies to contemporary texts Publishers Weekly A History of Canadian Literature looks at the work of writers and the social and cultural contexts that helped shape their preoccupations and direct their choice of literary form W H New explains how from early records of oral tales to the writing strategies of the early twenty first century writer reader literature and society are interrelated New discusses both Aboriginal and European mythologies looking at pre Contact narratives and also at the way Contact experience altered hierarchies of literary value He then considers representations of the real whether in documentary fantasy or satire historical romance and the social construction of Nature and State and ironic subversions of power the politics of cultural form and the relevance of the media to a representation of community standard and individual voice New suggests some ways in which writers of the later twentieth century codified such issues as history gender ethnicity and literary technique itself. In this second edition he adds a lengthy chapter that considers how writers at the turn of the twenty first century have reimagined their society and their roles within it and an expanded chronology and bibliography Some of these writers have spoken from and about various social margins dealing with issues of race status ethnicity and sexuality some have sought emotional understanding through strategies of history and memory some have addressed environmental concerns and some have reconstructed the world by writing across genres and across different media All genres are represented with examples chosen primarily but not exclusively from anglophone and francophone texts A chronology plates and a series of tables supplement the commentary The Unreasonable Virtue of Fly Fishing Mark Kurlansky, 2021-03-02 National Outdoor Book Award Winner for Outdoor Literature From the award winning bestselling author of Cod the irresistible story of the science history art and culture of the least efficient way to catch a fish Fly fishing historian Mark Kurlansky has found is a battle of wits fly fisher vs fish and the fly fisher does not always or often win The targets salmon trout and char and for some bass tarpon tuna bonefish and even marlin are highly intelligent athletic animals The allure Kurlansky learns is that fly fishing makes catching a fish as difficult as possible The flies can be beautiful and intricate some made with over two dozen pieces of feather and fur the cast is a matter of grace and rhythm with different casts and rods yielding varying results Kurlansky is known for his deep dives into specific subjects from cod to oysters to salt But he spent his boyhood days on the shore of a shallow pond Here where tiny fish weaved under a rocky

waterfall he first tied string to a branch dangled a worm into the water and unleashed his passion for fishing Since then his love of the sport has led him around the world's countries coasts and rivers from the wilds of Alaska to Basque country from Ireland and Norway to Russia and Japan And in true Kurlansky fashion he absorbed every fact detail and anecdote along the way The Unreasonable Virtue of Fly Fishing marries Kurlansky's signature wide ranging reach with a subject that has captivated him for a lifetime combining history craft and personal memoir to show readers devotees of the sport or not the necessity of experiencing nature s balm first hand Canadian Books in Print.
