The Starchild Trilogy Robert G. Williscroft, 2018-08-30

In book one Slingshot three scientist engineers reach for the stars as they blend their skills with a host of skilled colleagues to create the world's first Space Launch Loop. A team of young eco terrorists will go to any length to halt the project. One woman is determined to scoop the story reporting events to a watching world. Slingshot ranges from Seattle's financial district to the ocean bottom off Baker Island to the edge of space and across the vast panorama of an Equatorial Pacific. It's a love story, a gender bender and a mystery about a missing aviatrix, a conspiracy and a true believer. It's about high finance, intrigue, heroism, fanaticism, betrayal and humanity's surge into outer space. In book two The Starchild Compact an international team ventures to Saturn's moon Iapetus to verify it really is a derelict starship. They discover the Founders' descendants of the starship's builders who arrived in our Solar System 150,000 years ago. Together with the Founders the explorers advance Founder science with momentous implications for the entire Solar System, paving the way for a joint push to the distant reaches of the Galaxy. But a Persian Caliphate stowaway sabotages the mission, hoping to destroy science that he believes violates Islam. The Starchild Compact blends tomorrow's science with human foibles, fears, beliefs and political intrigue, speculating on how civilization might develop while traveling on a generational starship and how modern humans might interact with remnants of that civilization. In book three The Iapetus Federation besieged Israelites on Earth make their way to Mars as the Federation expands throughout the Solar System. While global Jihad rages on Earth, putting millions to the sword, the Starchild Institute develops wormhole transportation. But will this new technology be ready in time to rescue all that is left of the United States, the beleaguered Lone Star Conservancy and remnants of other cultures around the globe. From hand to hand combat in the oceans to battles on Earth's surface to struggles in interplanetary space, our heroes fight to survive and expand to the far reaches of the universe. *The Starchild Trilogy SF*. Frederick Pohl, 1968

The Oort Federation: To the Stars Robert G. Williscroft, 2022-03-24 As the Oort Federation becomes a major force in the Solar System, Braxton Thorpe passes the Federation chairmanship to former US President John Butler. Thorpe's group offers humanity virtual immortality, but Isidor Orlov and his Udachny Enterprises oppose their every move. While terraforming Mars for more living space, the Mars Reds prove formidable as resisters. If the Asterian starship fighter pilots are released, will they align with Phoenix or Udachny, and who will develop the right FTL technology? In this tense space adventure, Thorpe, his team and Max the tabby cat travel to Proxima Centauri and beyond to the Aster system, 84 lightyears distant. Will Thorpe bring together humans and Asterians in their quest for intergalactic travel? Will long life prove more than mere humans can handle?

The Boy Who Would Live Forever Frederik Pohl, 2005-11-01 In 1977 Frederik Pohl stunned the science fiction world with the publication of *Gateway*, one of the most brilliantly entertaining SF novels of all time. More than twenty-five years later Pohl completed a new novel set in the Gateway universe: *The Boy Who Would Live Forever*. The Boy Who Would Live

Forever has a sense of wonder and excitement that will satisfy those who loved Gateway and will delight new readers as well. In Gateway long after the alien Heechee abandoned their space station Gateway as humans dubbed it, allowed humans to explore new worlds. The Heechee, alarmed by the alien Kugel whose goal was to destroy all organic lifeforms, had already retreated to the galactic core where they now lived in peace. Now in *The Boy Who Would Live Forever*, humans with dreams of life among the stars are joining the Heechee at the core to live there along with those humans and Heechee whose physical bodies have died and their minds stored in electronic memory so that their wisdom passes down through the ages. Their peace is threatened by the Kugel who may yet attack the core. But a much greater threat is the human Wan Enrique Santos Smith whose blind loathing of the Heechee fuels an insane desire to destroy them and incidentally every living being in the galaxy. Stan and Estrella, two young people from Earth, went to Gateway looking for adventure and found each other. They settle among the Heechee on Forested Planet of Warm Old Star Twenty Four, never suspecting that they may be the last best hope to save the galaxy. But with allies like Gelle Klara Moynlin, one of the galaxy's richest women who isn't content to just have money but wants to use her wealth for good, and machine mind Marc Antony, a wonderful chef to thousands of living and stored clients, they are destined to contend with Wan's terrible plan. Frederik Pohl has woven together the lives of these and other memorable characters to create a masterful new novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Iapetus Federation Robert G. Williscroft, 2018-08-30. Although presumed dead, Saeed Ismail resurfaces following the events of *The Starchild Compact* to lead a global Jihad. Aided by Founder Asshur, besieged Israelis on Earth make their way to Mars. Under Rod Zakes, the Iapetus Federation expands to include the human settled parts of the Solar System protected by Dmitri Gagarin's Federation Security Force. While global Jihad rages, the Starchild Institute on Iapetus develops a form of worm hole transportation, but will this new technology be ready in time to rescue Sam Houston and all that is left of the United States? The beleaguered Lone Star Federation. Can worm hole technology solve the task of moving millions of people from Earth to Iapetus? While Earth sinks into medieval barbarism, off-world humanity struggles to survive and prosper in the far reaches of the Solar System and beyond.

Slingshot Robert G. Williscroft, 2018-07-31. Revised Second Edition. It's about high finance, intrigue, unlimited ambition, heroism, fanaticism, betrayal, and about opening space to the common person. The setting is the day after tomorrow. Technology has advanced, the web is more pervasive than ever, but human ambition and greed remain unchanged. In *Slingshot*, Alex Regent, Margo Jackson, and Klaus Blumenfeld reach for the stars as they blend their skills to create the world's first space launch loop backed by major

software money Environmental fanatic Lars Watson with his team of young eco terrorists are funded by opposing financial interests who will go to any length to halt the project Reporter Lori Kutcher indiscriminately applies her own personal skills to ensure it is she who reports the unfolding events to a watching world With a cast of 69 Slingshot takes you from Seattle s world financial district to the ocean bottom at 5 000 feet off Baker Island to the edge of space 80 km above You play with dolphins and battle sharks You fly and sail and dive you work and play and love across the vast panorama of an Equatorial Pacific being put to leash to serve humanity s surge into outer space While its accurate science and precise engineering will appeal to hard science fiction buffs Slingshot s major focus is the grand journey the opening of outer space to the common person by men and women who loom larger than life as they work play and love **Sequels** Janet G. classic novellas as the powerful *The Gold at the Starbow's End* and *The Greening of Bed Stuy* and stories such as *Servant of the People*, *Shaffery Among the Immortals* and *Growing Up in Edge City* all finalists for major awards.
