Moving into Adolescence Roberta G. Simmons, 2017-07-05 From the sociological point of view adolescence traditionally has been described as a period of physical maturity and social immaturity Adolescents reach physical adulthood before they are capable of functioning well in adult social roles The disjunction between physical capabilities and socially allowed independence and power and the concurrent status ambiguities are viewed as stressful for the adolescent in modern Western society It has been assumed that the need to disengage from parents during these years will result in high levels of rebellion and parent child conflict Moving into Adolescence follows students as they make a major life course transition from childhood into early adolescence Substantial controversy has been generated within the behavioral sciences concerning the difficulty of adolescence as a transitional period On the one hand there are those who characterize the period as an exceptionally and necessarily stressful time in the life course On the other hand many investigators treat this view of adolescence as their straw man To them the supposed tumult of adolescence is just that supposed and mythical The purpose of this book is to study the transition from childhood into early and middle adolescence in order to investigate change along a wide variety of psychosocial dimensions with a particular focus on the self image The authors investigate the impact of timing of pubertal change and also the movement from an intimate elementary school context into a large scale secondary school environment The first major movement into a large scale organizational context may cause difficulty for the child as may the dramatic changes of puberty In addition gender differences and changes in gender differences are studied Both short and long term consequences of transition are examined focusing on is the role of pubertal change and school transition

I grew up on the Pine Ridge Indian Reservation in South Dakota where I faced living in two different cultures to the time I joined the U.S. Army. My story is not about the accumulation of wealth or being famous or being some savior. It is about a simple dream. My story starts from the time I remember reaching the age of awareness to the present. I do not claim to be a writer so my story may not be a well-planned or polished literary work that meets all the high standards of writing. The story is about being on a path out of poverty. I was raised by my grandparents from a baby to the time I joined the U.S. Army. For some reason, my mother left me to be raised by her parents. They were poor people, seasonal laborers who lived with a strong belief in their God. We lived in a two-room shack with tarpaper siding that had no inside toilet, running water, or electricity. That was our home. They were always short of money to buy necessities and usually faced hunger. However, they were a good couple and had a faith to believe in God. However, I was fortunate to get a good education and had the opportunity to join the army for a career. I experienced new horizons that exposed me to new learning that tempered my attitude. I wish to share my experiences and thoughts from traveling along a path chosen with especially the Lakota youth and the non-Lakota youth who have written in this book. Pilamaya. Thank you.
