Teaching Children 3-11

a student's guide

Edited by
Anne D. Cockburn & Graham Handscomb

Teaching Children 3 11

H Kauffman

Teaching Children 3 11:

Men Teaching Children 3-11 Elizabeth Burn, Simon Pratt-Adams, 2015-11-19 Men Teaching Children 3 11 provides a comprehensive exploration of work experiences of men who teach young children The authors draw on their own research as well as international studies to provide realistic strategies to help to remove barriers in order to develop a more gender balanced teacher workforce Burn and Pratt Adams former primary school teachers who have both experienced these unfair gender practices also trace the historical roots of the gender barriers that have now become embedded within the occupational culture Throughout Men Teaching Children 3 11 the authors argue that primary school teachers should be judged by their teaching talents rather than by the application of biased gender stereotypes and that male and female teachers need to work together to remove these stereotypes from the occupation

Teaching Children 3-11 Anne D Cockburn, Graham Handscomb, 2011-11-11 Focusing on the major topics underpinning professional studies strands in primary and early years teacher education Teaching Children Three Eleven provides indispensable coverage of vital practical and conceptual issues that support good teaching practice This Third Edition of the popular textbook has been carefully revised following detailed lecturer feedback to meet the evolving needs of students training to teach across the three to eleven age range Featuring four new chapters on curriculum development cross curricular teaching diversity and inclusion and communication in the classroom and engaging with the growing need for Master s level study in teacher education the new edition offers a balanced contemporary overview of modern teaching practice in an engaging and accessible manner This is essential reading for all students on primary and early years initial teacher education courses including undergraduate BED BA with QTS postgraduate PGCE SCITT and employment based routes into teaching It will also be invaluable for those starting out on their professional careers Anne Cockburn is Professor of Early Years Education at the University of East Anglia Graham Handscomb is Senior Manager in Strategic Development for School Improvement and Early Years at Essex County Council

Teaching Children 3 - 11 Anne D Cockburn, Graham Handscomb, 2006-03-03 Teaching Children 3 11 is a book for those contemplating a career in primary teaching those about to embark on initial teacher education and those who are simply interested in the business of teaching children aged three to 11 years It provides an overview of the key aspects involved in becoming a primary teacher both in terms of new government initiatives e g the National Primary Strategy collaboration and networking and personalization but also in terms of what it is to be a trainee teacher in the rapidly evolving world of primary schooling This Second Edition brings readers up to date with the many changes that have taken place in primary education in the last five years and the book now takes into account the many different ways of becoming a trainee teacher including open learning in school training and modular study New material in this edition includes a look at CPD studies especially reflection lifelong learning and mentoring collaborative practice and further discussion on professional values and working with other adults in the classroom

Doing Your PGCE at M-level Keira Sewell, 2012-04-04 With new

reflective activities designed to help students develop critical skills and improved references to additional material this new edition of the best selling student guide offers a clear and concise overview of M level aspects in teacher education This Second Edition includes discussion of recent developments in education policy greater coverage of reflective practice in school based training and up to date advice on how to get a teaching job at the end of your course *Teaching Children 3 to 11* Anne D Cockburn,2002-01-04 A thought provoking and accessible guide to essential practices enabling the reader to become a capable caring and confident professional fully prepared to educate the adults of the future **Relationships and Sex Education 3-11** Sacha Mason,Richard Woolley,2019-03-21 Where do babies come from The prospect of this age old question is one that causes significant apprehension for many professionals working with children but this isn't where the anxiety ends This book argues that it is essential to have clear strategies to support children's questions about relationships growing up and sex so that they are enabled to develop positive and confident views about themselves and those around them It examines important concerns such as the role of media in children's lives in shaping their views on relationships and explores how issues of gender and sexuality are considered more fluidly Whether working in an academy free schools faith schools the independent sector or elsewhere this book supports you to help children to deal with a wide range of relationships issues meeting the requirements of the new legislation on relationships education for primary aged children as a foundation for relationships and sex education Drawing on research with teachers about their apprehensions about teaching the subject and children's experience of its delivery the authors give a full picture of common concerns and difficulties and how to successfully meet them and support children from 3-11 and the transition to secondary school Topics covered include platonic friendships developing self respect and respect for others and enabling personal choice and safety Sacha Mason and Richard Woolley explore issues surrounding notions of age and stage development They discuss how children develop at different rates and that each child is unique in relation to learning in this area They outline a distinct pedagogical approach to managing children's individual needs for relationships and sex education They also look at supporting children with SEND when considering how to implement relationships education in primary schools This second edition includes new chapters on children's development and needs and developing inclusive relationships education The book has been updated throughout with summaries of the latest research case studies ideas for developing practice and signposts to key websites and resources The chapters provide all the support you need to confidently promote children's healthy development Supporting Early Mathematical Development Caroline McGrath,2010-07-12 Supporting Early Mathematical Development is an essential text for current Early Years practitioners and students offering an excellent blend of theory and practice that will enable you to provide successful mathematical education for children from birth to eight years old Charting the delivery of mathematical development in Playgroups Children's Centres Nurseries and Primary Schools it forges links between current practice and fundamental Early Years principles and makes suggestions for creating

effective pedagogies in maths teaching Promoting mathematical development through play based learning this book presents a wealth of practical multi sensory teaching strategies instructional methodologies activity ideas incorporating play books songs cookery and the outdoors examples of children s work advice on translating theory into practice questions for reflective practice Throughout the book Caroline McGrath breaks down the complexity of teaching and learning mathematics into simple steps and guides readers through possible gaps in their knowledge bringing fresh enthusiasm to teaching mathematics This is an invaluable resource for practitioners and trainee teachers wishing to strengthen their mathematical teaching and professional practice or for students on a wide range of Early Years courses **Play-based Learning in the**

Primary School Mary Briggs,Alice Hansen,2012-04-04 Play based Learning in the Primary School demonstrates the value of play in all its different forms as a highly effective medium for teaching and learning across the curriculum Authors Mary Briggs and Alice Hansen explore how play can be used to increase engagement motivation and fun in learning situations examining the theoretical principles of play for learning types of play for older children planned and facilitating play based learning using thematic approaches when working with individuals groups and whole classes in addition to covering important teaching issues such as assessment inclusion and transition out of primary education *An Introduction to the*

Foundation Phase Amanda Thomas,Alyson Lewis,2016-09-08 An Introduction to the Foundation Phase provides a practical guide to understanding and implementing the Foundation Phase in any early years setting in Wales The experienced author team discuss and reflect upon a play based approach to learning and the importance of collaboration between various members in any early years settings Students are introduced to key topics including key theories of influential thinkers within early years education both past and present international curricula and perspectives on play and how Welsh curriculum compares effective classroom practice observational techniques methods of assessment and how to be a reflective practitioner Through interviews with different stakeholders including educational ministers policy advisors practitioners and parents An Introduction to the Foundation Phase concludes by discussing the challenges and complexities of putting policy into practice and considers implications for the future of early years education Making links between theory policy and practice is vital for a future workforce and this core text provides a solid foundation for any student within early years Illustrative case studies activities reflective tasks and suggestions for further reading are provided throughout Online resources for lecturers and students are also included *Advanced Early Years Care and Education* Iain

MacLeod-Brudenell,2004 This core textbook for foundation degrees covers the content of the 12 core outcomes at the appropriate depth and breadth giving students a complete grounding in the basics of the subject
