Teaching Introductory Psychology:

A Guide to Teaching Introductory Psychology Sandra Goss Lucas, 2009-01-22 A Guide to Teaching Introductory Psychology focuses on the critical aspects of teaching introductory psychology to undergraduate students. It includes ideas, tips, and strategies for effectively teaching this course and provides useful answers to commonly asked questions. A concise and accessible guide to teaching introductory courses in Psychology. Begins with an orienting history of the course. Evaluates current trends in teaching and offers suggestions for developing personal techniques. Addresses a number of relevant issues including how to teach difficult topics, linking course content to everyday experience, developing and using class presentations, lectures, and active learning ideas, and increasing interest in course topics. Supported by a website that provides links to useful websites and handouts that instructors can use in their classes. <http://www.blackwellpublishing.com/teachpsychscience/lucas>

Best Practices for Teaching Introduction to Psychology Dana S. Dunn, Stephen L. Chew, 2006-04-21 This new book provides a scholarly yet practical approach to the challenges found in teaching introductory psychology: developing the course and assessing student performance; selecting which topics to cover and in how much depth; the effective use of technology. Teaching Introductory Psychology Roz Brody, Nicky Hayes, 1984 Handbook for Teaching Introductory Psychology Michelle Rae Hebl, Charles L. Brewer, Ludy T. Benjamin, Jr., 2001-08-01 Like its predecessors, Volume III of the Handbook for Teaching Introductory Psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom. It contains an organized collection of articles from Teaching of Psychology TOP, the official journal of the Society for the Teaching of Psychology, Division 2 of the American Psychological Association. Volume III contains 89 articles from TOP that have not been included in other volumes. Another distinction between this volume and its predecessors is its emphasis on testing and assessment. The book is divided into two sections. Section One, Issues and Approaches in Teaching Introductory Psychology, contains 52 articles on critical issues such as how to approach the course, understanding students' interests, perceptions, and motives; students' existing knowledge of psychology, including their misconceptions; a comparison of introductory textbooks and tips on how to evaluate them; test questions and student factors affecting exam performance; an overview of different forms of feedback; giving extra credit; and how to deal with academic dishonesty. Section Two consists of 37 articles that present demonstrations, class and laboratory projects, and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline. This section is organized so as to parallel the order of topics found in most introductory psychology textbooks. Intended for academicians who teach the introductory psychology course and/or oversee grad assistants who teach the course, all royalties of the book go directly to the Society for the Teaching of Psychology to promote its activities and to further improve the teaching of psychology.

Thematic Approaches for Teaching Introductory Psychology Dana S. Dunn, Bridgette Martin Hard, 2017-01-27 Recognizing the importance of introductory psychology as a gateway course, this

edited up to date guide presents insights that help educators address challenges of coverage integration of active learning opportunities and ever evolving educational technologies The book features current scholarship and pedagogical practices regarding the teaching of introductory psychology in face to face online or hybrid environments The editors achieve their goals through an unusual approach inviting experienced and expert teachers of introductory psychology to describe an ongoing theme that provides structure and unity to the gateway course Themes include broad frameworks e g problem based learning big ideas that integrate course content e g subjectivity of human experience or particular skills and ways of thinking e g quantitative reasoning Important Notice Media content referenced within the product description or the product text may not be available in the ebook version Teaching Introductory Psychology Robert J. Sternberg,1997-01-01 The editor s goal in compiling this book was to invite authors to articulate their philosophies course designs and teaching techniques for the introductory psychology course The authors were told to write a chapter for all introductory psychology teachers and to address how the teaching of introductory psychology could be made more rewarding to students and teachers alike A few authors comment specifically on the writing process of introductory textbooks and the parallels they have found between the classes they teach and the material they write It is hoped that these chapters help to shed light on any introductory textbook s underlying purpose goals and organization and thus enable teachers to use these essential texts more effectively

Teaching Introductory Psychology ,2011 **Teaching Introductory Psychology** Roz Brody,Nicky Hayes,1995 Ideas for how teaching can be structured are presented in a lively manner and there are suggested topic sequences designed for planning a modular course Major themes and issues which emerge in or can be drawn from the different topics are discussed along with ideas for how to bring each topic alive for students in the classroom or seminar group There are comments and suggestions about how students sometimes react to different topics along with useful ideas for practical work **Handbook for Teaching Introductory Psychology** Ludy T. Benjamin,Robert S. Daniel,Charles L. Brewer,Michelle Rae Hebl,Richard A. Griggs,2000 Intended for teachers of the Intro Psych course this bk consists of articles previously published in TOP which address teaching issues approaches and suggest demonstrations projects other techniques to engage students enhance teaching learning Handbook for Teaching Introductory Psychology Richard A. Griggs,2002
