Building Successful Safety Teams E. Scott Geller, 2001-09-01 Learn how to implement a team based process that enables all members to be responsible to the safety process In five easy to read chapters behavioral based safety expert Scott Geller explains the function of teams He identifies and defines seven types of teams your organization can use to implement behavior based safety and explains why two of them are essential to any organization Geller then guides you step by step through the team building process He addresses reasons why groups make risky decisions and what happens when teams do not work well He also details how to build team cohesiveness using the seven Cs of building a trusting culture and the four stages of team development This book contains dozens of easy to reference checklists assessment tools diagrams definitions and cartoons that aid in understanding of the principles and procedures **Leadership** Anne F. Coyle, American Society for Training and Development, 1997 Prepared by experts at the top of their fields on behalf of the American Society for Training and Development this title gives you easy to personalize workshops on the hottest topics in training It also offers the flexible design and training games role plays learning activities surveys overheads and presentations **Value Stream**

Management Don Tapping, 2002-05-06 The Value Stream Management System simplifies the planning process for lean implementation ensuring quick deployment and greater success It links the metrics and reporting required by management with the lean tools needed on the manufacturing floor The central feature of this illustrative and engaging book is the value stream management storyboard a tool representing an eight step process for lean implementation The storyboard brings together people tools metrics and reporting into one visual document The authors stress the importance of reaching beyond single point kaizens to ensure a sustainable lean implementation process Many people use the value stream map as an individual tool but not within the context of a proven overall system Value Stream Management Eight Steps to Planning Mapping and Sustaining Lean Improvements shows you how to use mapping as part of a complete system for lean

implementation The final outcome of Value Stream Management is the creation of a complete visual plan for lean transformation and the mastery of the skills required to implement that plan Instead of just using Toyota Production System Tools the authors encourage you to create your own lean production system Value Stream Management will help you to complete your process and sustain it Along with this book you receive downloadable resources containing a lean assessment tool a storyboard template useful charts a team charter forms reports and worksheets

Strategic Planning John C. Wills,1997 As part of the ASTD Trainer s Sourcebook Series this volume presents complete tool kits and instructions for creating effective personalized training programmes This text concentrates on strategic planning Surveys games and role plays are covered in here with complete instructions on set up handling the activity and participant handouts Full illustrations of training steps such as trainer openings discussion questions and skill practices are also incorporated
