L.V. Goncharova, Teacher of a Chair of Russian and Foreign Languages of the Krasnodar University of the Ministry of the Interior of Russia; tel.: +79282054629.

Actual problems of modern teaching foreign languages

The article is considered the main methods of teaching students to read professionally oriented foreign texts.

Key words: methods of teaching, skimming reading, introductory reading, searching reading, language material, text's content, skills and abilities.

В последнее время обучению иностранным языкам уделяется огромное внимание. И это не только «дань моде» на иностранные языки, но и необходимость для всестороннего развития будущего специалиста в той или иной области. Сейчас, как никогда, имеются все условия для изучения иностранного языка: это и возможность выезда за рубеж, и общение с носителями языка через Интернет, и возможность приглашать иностранных специалистов. Значительное расширение международных контактов в различных сферах человеческой деятельности существенно повлияло на изменение потребностей и целей овладения языком международного общения. Сегодня мы получили большую свободу в установлении прямых международных контактов. За счет этого появилась возможность иметь разнообразные аутентичные материалы, на основе которых осуществляется обучение. Это учебники, публикуемые в странах изучаемого языка, периодическая литература, видеофильмы, фонетические материалы, напечатанные носителями языка, и т.д.

В результате формирование иноязычной компетенции стало одной из основных целей обучения иностранным языкам. Интеграция России в единое европейское общеобразовательное пространство, усовершенствование и реформирование языкового образования привели к новому осмыслению целей, задач и содержания обучения иностранным языкам.

Положительным фактором в ходе реформирования языкового образования является возможность международного сотрудничества. Многие образовательные учреждения участвуют в международных проектах, разрабатываются совместные учебные материалы, интернет-программы, проводятся межвузовские конференции, симпозиумы по обмену опытом и т.д. Большой резерв повышения мотивации обучения и совершенствования иностранных языков заключен в возможности использования средств массовой коммуникации: программы новостей, художественных фильмов, музыкальных передач, молодежных программ.

В данной статье речь идет о способах изучения иностранного языка в неязыковом вузе посредством развития навыков чтения иноязычного текста с учетом базовых знаний обучаемых, особенностей интерпретации иноязычного текста на русский язык, а также фоновых знаний в той или иной специфической сфере.

Проблема повышения эффективности обучения иностранным языкам в неязыковых вузах остается актуальной до сегодняшнего времени. Не секрет, что, окончив высшую школу, большой процент выпускников отправляется на различные курсы «доучивать» или заново изучать иностранный язык. При обучении в вузе в условиях дефицита учебных часов возникают объективные трудности по развитию ключевых, ведущих для неязыковых вузов умений чтения профессиональной литературы на иностранном языке.
