The Perfect 10 Michael G. Moriarty, 1999 Most of us realize that traffic laws exist to preserve our lives not cramp them Yet when it comes to moral laws 66 percent of Americans believe there are no absolutes Is it any wonder then that the highway of our postmodern culture is strewn with wrecks Broken marriages overcrowded prisons murder in the classrooms babies having babies they're what happen when we confuse liberty with ignoring the rules of the road That's why Michael Moriarty is convinced that the Ten Commandments really are The Perfect 10 Behind them lie God's concern for our welfare and his understanding of the indelible truths that govern our world our relationships and our inner being One by one Moriarty reveals the Ten Commandments as the keys to wholeness and freedom and shows their far reaching application for us today For the Perfect 10 remain the ideal ethical compass They help us align our lives with the character of God and to a world hurtling blindly down the dead end road or moral relativism they point the way back to sanity restoration and life

Monstrous Liminality Robert G. Beghetto,2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom

alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of Monstrous Liminality is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any
