The Soul of Commerce: Credit, Property, and Politics in Leipzig, 1750-1840 Robert Beachy, 2005-12-01 This volume provides a new interpretation of the social and cultural context that shaped German political reforms from the mid eighteenth to the mid nineteenth century Focusing on Electoral Saxony the analysis demonstrates how the commercial city of Leipzig shaped the Saxon Enlightenment and then had a powerful influence on reforming the territorial state The study presents extensive archival research to develop a careful account of Leipzig s social and political history and then argues persuasively that the city played a catalytic role in the introduction of a Saxon constitutional monarchy after 1830 The volume emphasizes the role of pre modern urban political and legal norms in shaping the first liberal reforms in nineteenth century Germany

Retallack,Professor of History and German Studies James Retallack,2006-01-01 With unification as a nation state under Bismarck in 1871 Germany experienced the advent of mass politics The dynamic political culture that emerged challenged the adaptability of the interlocking directorate of the Right This work examines how the authoritarian imagination inspired the Right and how political pragmatism constrained it **Germany's Urban Frontiers** Kristin

Poling,2020-09-29 In an era of transatlantic migration Germans were fascinated by the myth of the frontier Yet for many they were most likely to encounter frontier landscapes of new settlement and the taming of nature not in far flung landscapes abroad but on the edges of Germany s many growing cities Germany s Urban Frontiers is the first book to examine how nineteenth century notions of progress community and nature shaped the changing spaces of German urban peripheries as the walls and boundaries that had so long defined central European cities disappeared Through a series of local case studies including Leipzig Oldenburg and Berlin Kristin Poling reveals how Germans on the edge of the city confronted not only questions of planning and control but also their own histories and futures as a community **Acolytes of Nature** Denise

Phillips,2024-05-31 Although many of the practical and intellectual traditions that make up modern science date back centuries the category of science itself is a relative novelty In the early eighteenth century the modern German word that would later mean science naturwissenschaft was not even included in dictionaries By 1850 however the term was in use

everywhere Acolytes of Nature follows the emergence of this important new category within German speaking Europe tracing its rise from an insignificant eighteenth century neologism to a defining rallying cry of modern German culture Today's notion of a unified natural science has been deemed an invention of the mid nineteenth century Yet what Denise Phillips reveals here is that the idea of naturwissenschaft acquired a prominent place in German public life several decades earlier Phillips uncovers the evolving outlines of the category of natural science and examines why Germans of varied social station and intellectual commitments came to find this label useful An expanding education system an increasingly vibrant consumer culture and urban social life the early stages of industrialization and the emergence of a liberal political movement all fundamentally altered the world in which educated Germans lived and also reshaped the way they classified knowledge

War, Demobilization and Memory Alan Forrester, Michael Rowe, 2016-04-08 This volume examines the impact of the wars in the Atlantic world between 1770 and 1830 focusing both on the military economic political social and cultural demobilization that occurred immediately at their end and their long term legacy and memory
