Mindfulness in Sound Mark Tanner, 2020-05-05 Our world is brimming with sound from the detonation of distant thunder to the drip drip drip of a rusty drainpipe Once we've been shown how to listen more attentively and creatively we can access a deeper more lasting meditation Our thoughts dreams and daydreams might be carried along a stream of birdsong or punctuated by a rush of unexpected laughter Learning about sound where how and why it comes into being is learning about the world itself In Mindfulness in Sound Mark Tanner encourages us to consider afresh the origins of resonance and the wider impact of natural sound in our daily lives Through simple meditations he shows us how we can become more receptive to a hinterland of beautiful as well as challenging noise and tune into the soundtrack of our own imagination As we consider the nature of sound and the sound of nature we will find ourselves connected more vibrantly to the world we live in and to a more sustainable inner peace

Comparative Literature in the Light of Chinese Prosody Shudong Chen, 2018-10-31 In the light of Chinese prosody and various mutually illuminating major cases from the original English Chinese French Japanese and German classical literary texts the book explores the possibility of discovering a road not taken within the road well trodden in literature In an approach of what Wittgenstein calls criss crossing this

monographic study the first ever of this nature as Roger T Ames points out in the Foreword also emphasizes a pivotal recognition that these Chinese values revealed in the book are immediately relevant to the Western narrative as well the book demonstrates in other words how such a criss crossing approach would be unequivocally possible as long as our critical attention be adequately turned to or pivoted upon the trivial matters a posteriori in accordance with the live syntactic prosodic context such as pauses stresses phonemes function words or the at once text enlivened and text enlivening ambiguity of parts of speech which often vary or alter simultaneously according to and against any definitive definition or set category a priori This issue pertains to any literary text across cultures because no literary text would ever be possible if it were not for instance literally enlivened by the otherwise overlooked meaningless function words or phonemes the texts simultaneously also enliven these meaningless elements and often turn them surreptitiously into sometimes serendipitously meaningful and beautiful sea change effecting les mots justes Through the immeasurable and yet often imperceptible influences of these exactly right words our literary texts such as a poem could thus not simply be but subtly mean as if by mere means of its simple rich and naturally worded being truly a special word picture of das Ding an sich Describable metaphorically as museum effect and symphonic tapestry a special synaesthetic impact could also likely result from such les mots justes facilitated subtle and yet phenomenal sea changes in the texts *Catalog of Copyright Entries* Library of Congress. critical studies in order to address how globalization creates new forms of self identity and sociality Rewind and Search
Mary Jane Miller,1996-04-15 The first half of Rewind and Search looks at the makers the producers directors writers story
editors and actors while the second half deals with the decision makers issues policy and ethos that affect the making of CBC
television including drama Miller pays particular attention to the ways in which programs were influenced by evolving
audience expectations technological advances and changes in policy personnel and the corporate structure of the CBC With
more cutbacks and a change of mandate looming on the horizon the CBC is at a crossroads Rewind and Search reveals the
value of television drama as an important part of our Canadian heritage a part that should not be ignored **The Death of
Classical Cinema** Joe McElhaney,2012-02-01 The Death of Classical Cinema uncovers the extremely rich yet insufficiently
explored dialogue between classical and modernist cinema examining the work of three classical filmmakers Alfred
Hitchcock Fritz Lang and Vincente Minnelli and the films they made during the decline of the traditional Hollywood studio
system Faced with the significant challenges posed by alternative art cinema and modernist filmmaking practices in the early
1960s these directors responded with films that were self conscious attempts at keeping pace with the developments in film
modernism These films Lang s The Thousand Eyes of Dr Mabuse Hitchcock s Marnie and Minnelli s Two Weeks in Another
Town were widely regarded as failures at the time and bolstered critics claims concerning the irrelevance of their directors
in relation to contemporary filmmaking However author Joe McElhaney sheds new light on these films by situating them in
relation to such acclaimed modernist works of the period as Godard s Contempt Fellini s La dolce vita Antonioni s Red Desert
and Resnais s Last Year at Marienbad He finds that these modernist films rather than being diametrically opposed in form to
the work of Hitchcock Lang and Minnelli are in fact profoundly linked to them
