Tools To Help Your Children Learn Math: Strategies, Curiosities, And Stories To Make Math Fun For Parents And Children Alfred S Posamentier, Gavrielle Levine, Aaron Lieberman, Danielle Sauro Virgadamo, 2019-03-25 Parents need to take an ever increasing role in their child's learning experience. However, what to do and how to do it is often not prescribed to the parents. This book offers a wide variety of aspects related to the parent's role as a support to their child's learning of mathematics and above all, appreciation for the subject. The uniqueness of this book is that we provide the parent the information they need about how mathematics is taught in today's early grades. We then provide a plethora of ideas that can motivate children with information beyond that which is taught in the classroom. *The Home School Source Book* Donn Reed, 1994

Starting an Elementary Physical Education Program William David Thomas, William M Thomas, 2008-04 When students have access to a great physical education program, they tend to be happier, be more socially adjusted, and cause fewer discipline problems. *Starting an Elementary Physical Education Program* guides educators through the process of implementing a program that provides each student with the opportunity to participate in a variety of sports and activities in a positive and safe environment. William M Thomas has over thirty-five years of experience teaching in a public school system, five years of which were dedicated to building a successful elementary physical education program. Thomas not only shares a guideline of activities that helps students develop good sportsmanship, he leads educators through the creative process of developing and beginning the program. A scope and sequence is also included, explaining what activities and competency levels children should be achieving in each grade. By using this model, a teacher is able to plan activities for the entire year. Educators who have the desire to leave a lasting impression on all students will benefit from the step-by-step mentoring and guidance provided in *Starting an Elementary Physical Education Program*, allowing every teacher and administrator to focus on what is most important: helping students excel, one child at a time.
