Teaching As A Performing Art Workbook:

Teaching as a Performing Art Workbook Leon M. & Gillis Lessinger (Don), **Teaching as a Performing Art** Seymour B. Sarason, 1999 In his most recent work and with his usual perceptiveness Seymour Sarason probes the topic of teaching as a performing art Refreshingly Dr Sarason focuses on the often overlooked role of teachers in galvanizing an audience their students Sarason argues that teachers will better engage learners if they are prepared in the artistry of doing so Sarason sees teachers as actors and thus uses the traditions of stage performance to inspire ways to foster connections between teachers and students Sarason elucidates how the rehearsal processes actors undergo and the direction they receive for example would be similarly beneficial for educators Recognizing that implementing his ideas would require a profound rethinking of teacher training programs Sarason urges why they are crucial to excellence in education As always Sarason s writing is rich with insight garnered from 45 years of teaching and a lifetime devotion to educational issues His book is essential for teachers and teacher educators and an excellent resource for anyone interested in educational topics Once again Sarason like other great teachers and artists has us pause at the moral center of what we thought we knew long enough to recognize truths we might otherwise neglect Just as he guided our understanding of school cultures and school reform this book reshapes what we previously thought of as the art of teaching Jeannie Oakes Professor of Education at University of California Los Angeles Seymour Sarason thinks he has something new to say Indeed he has Furthermore he writes about a domain anyone who has taught in educational institutions identifies with immediately but is almost barren of attention There are insight great writing and passion here but don t look for a repetition of anything Sarason has written before To the thousands of psychologists sociologists and teachers of teachers already nourished by Sarason s writing this book will add the audience of teachers in and out of schools that he has always wanted to reach John Goodlad Co director Center for Educational Renewal University of Washington and President Institute for Educational Inquiry **The Heart of Teaching** Stephen Wanh, 2013 *The Heart of Teaching* is a book about teaching and learning in the performing arts Its focus is on the inner dynamics of teaching the processes by which teachers can promote or undermine creativity itself It covers the many issues that teachers directors and choreographers experience from the frustrations of dealing with silent students and helping young artists unlearn their inhibitions to problems of resistance judgment and race in the classroom Wanh raises questions about what can and what cannot be taught and opens a discussion about the social psychological and spiritual values that underlie the skills and techniques that teachers impart Subjects addressed include Question asking which kinds of questions encourage creativity and which can subvert the learning process Feedback how it can foster both dependence and independence in students Grading its meaning and meaninglessness Power relationships transference and counter transference The pivotal role of listening *The Heart of Teaching* speaks to experienced teachers and beginning teachers in all disciplines but is particularly relevant to those in the performing arts from which most of its examples are drawn It brings
