Handbook of

Classroom Management Carolyn M. Evertson, Carol S. Weinstein, 2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The *Handbook of Classroom Management* has four

primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background socioeconomic status and ableness Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management

Building Effective Physical Education Programs Deborah Tannehill, Dr Hans Van Der Mars, Ann MacPhail, 2013-10-21 *Building Effective Physical Education Programs* is a unique text focused on designing and delivering school physical education programs The text succeeds in helping pre service novice and more experienced teachers to understand the essential components necessary to create and deliver impactful physical education programs within their school or organization Through its use of engaging learning experiences found in each chapter this text is ideal for use across various physical education teacher courses and teacher professional development programs Written for an international audience *Building Effective Physical Education Programs* acknowledges both the similarities and differences of physical education programs from country to country International case studies are included to further illustrate worldwide practices This text is appropriate for the student who is interested in the field of physical education as well as the seasoned professional with years of experience

Key Features
