Teaching The Helping Skills A Field Instructors Guide:

Teaching the Helping Skills Lawrence Shulman, 1993 Field Instruction in Social Work Settings Toba Schwaber Kerson, 2014-01-14

Field Instruction in Social Work Settings explores the relationship between field instruction and the setting in which it occurs. The book asserts that certain aspects of social work including laws, funding, political climate, organizational policies, and values affect the relationship between student and field instructor and shape teaching and learning. The book explores dimensions of the student-field instructor relationship such as goals and expectations, development of professional identity, uses of the self, issues of diversity, authority, dependency, autonomy, value dilemmas, and the structure of supervision. It presents a framework for teaching field instruction and uses the framework to explore its relevance, meaning, and use in the following settings: perinatal AIDS program, public child welfare, child advocacy agency, public school, occupational health and safety project, family service, psychiatric hospital, case management program for the elderly, day center for the elderly. Field Instruction in Social Work Settings is the only book available relating field instruction to the specific context in which it occurs. It recognizes the social work field's diminished budget and increased demands and points out the critical necessity of students learning to address and manage policy and organizational issues as they develop their social work skills. This book is an aid to field instructors balancing increases in enrollment and curriculum content and decreases in placements and budgets. It integrates all of these concerns with field practice and seeks to provide a model for those working in the field as instructors and students. Field Instruction in Social Work Settings applies classroom material to social work settings and emphasizes the value of field instruction by relating it to the branches of child welfare, mental health, and health care. It allows the reader to integrate social work policy and advocacy with field work and it provides the reader with an appreciation of how social work and field instruction can work together directly.

Supervision in Counseling Lawrence Shulman, Andrew Safyer, 2014-01-14

A cross-disciplinary look at the latest research and effective approaches. Clinical supervision is crucial for learning and provides valuable support and evaluation of expertise and knowledge regardless of the discipline. Supervision in Counseling: Interdisciplinary Issues and Research explores the latest conceptual and empirical research in the pursuit of effective education in counseling across a variety of disciplines. Field instruction and clinical supervision issues are addressed in social work, psychology, counseling, and counselor education, nursing, and school psychology. Core elements are examined, including the development of the supervisor-supervisee working alliance and the parallel process in supervision. Supervision in Counseling: Interdisciplinary Issues and Research takes you beyond the standard narrow view of clinical supervision within a particular discipline, broadly focusing on research and practices that has value in all disciplines. Research and developments on organizational matters, ethical issues, legal issues, evaluation, relationship issues, models of supervision, and other developments are discussed in detail. The book includes helpful tables and figures and is extensively referenced. Topics in Supervision in Counseling: Interdisciplinary Issues and Research include major

developments in clinical supervision over the years a review of research literature in clinical supervision in counseling the working relationship between supervisor and practitioner challenges in remaining current in clinical supervision overview of literature on supervision in psychology clinical supervision as signature pedagogy for the mental health professions clinical supervision in nursing inside and outside of the United States research on field instruction in social work much more

Supervision in Counseling Interdisciplinary Issues and Research is an important resource for anyone in the field of clinical supervision in various disciplines such as social work psychology counseling and counselor education nursing and school psychology

Handbook of Symbolic Interactionism Larry T. Reynolds, Nancy J. Herman-Kinney, 2003 Symbolic interactionism has a long history in sociology social psychology and related social sciences In this volume the editors and contributors explain its history major theoretical tenets and concepts methods of doing symbolic interactionist work and its uses and findings in a host of substantive research areas

The Skills of Helping Lawrence Shulman, 1984

The Skills of Helping Individuals, Families, Groups and Communities Lawrence Shulman, 1999 This text focuses on the skills social workers use in the helping process It defines illustrates and teaches helping skills and provides manageable models for understanding them The book also looks at the underlying process and its associated set of core skills A range of helping situations are addressed so that social workers can find useful models to incorporate into their own work The core processes and skills are identified in the chapters on work with individuals and reappear in the discussions of group family and community work
