*Teaching Evidence-Based Writing: Fiction* Leslie Blauman, 2016-09-19. One in a million! Yes, that's how rare it is to have so many write about reading strategies so beautifully put to use. Each year Leslie Blauman guides her students to become highly skilled at supporting their thinking about texts and in Evidence-Based Writing Fiction she shares her win-win process. Leslie combed the ELA standards and all her favorite books and built a lesson structure you can use in two ways: with an entire text or with just the excerpts she's included in the book. Addressing Evidence Character, Theme, Point of View, Visuals, Words, and Structure, each section includes Lessons you can use as teacher demonstrations or for guided practice with Best the Test tips on how to authentically teach the skills that show up on exams with the texts you teach. Prompt Pages serve as handy references giving students the key questions to ask themselves as they read any text and consider how an author's meaning and structure combine. Excerpts to Write About Pages feature carefully selected passages from novels, short stories, and picture books you already know and love and questions that require students to discover a text's literal and deeper meanings. Write About Reading Templates scaffold students to think about a text efficiently by focusing on its critical literary elements or text structure demands and help them rehearse for more extensive responses. Writing Tasks invite students to transform their notes into a more developed paragraph or essay with sufficiently challenging tasks geared for grades 6-8. And best of all, your students gain a confidence in responding to complex texts and ideas that will serve them well in school, on tests, and in any situation when they are asked, "What are you basing that on? Show me how you know."

*Teaching Young Adult Literature Today* Judith A. Hayn, Jeffrey S. Kaplan, Karina R. Clemmons, 2016-11-02. *Teaching Young Adult Literature Today* introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads: smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects such as the absence of lesbian, gay, bisexual, transgender, and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen. This book has been updated to reflect the wealth of new YA literature that has been

published since the first edition appeared in March 2012 and to reflect new trends in technology that influences how adolescents are reading and responding to literature
