Teachers as Mediators in the Foreign Language Classroom Michelle Kohler, 2015-01-12 Language teachers are key figures in preparing young people for participation in an increasingly multilingual and culturally diverse world yet little is known about how they go about this in practice This book uses examples of classroom interaction to reveal how teachers of languages act as intercultural mediators and the implications of this for practice To date there has been little exploration of how teachers mediate language and culture learning from an intercultural perspective and what underlies their mediation practices in terms of their conceptions of intercultural language teaching and learning This book offers an account of what teachers are thinking feeling and doing as they enact an intercultural perspective on language teaching and learning

Language, Culture, and the Embodied Mind Joseph Shaules, 2019-12-04 There is an odd contradiction at the heart of language and culture learning Language and culture are so to speak two sides of a single coin language reflects the thinking values and worldview of its speakers Despite this there is a persistent split between language and culture in the classroom Foreign language pedagogy is often conceptualized in terms of gaining knowledge and practicing skills while cultural learning goals are often conceptualized in abstract terms such as awareness or criticality This

book helps resolve this dilemma Informed by brain and mind sciences its core message is that language and culture learning can both be seen as a single interrelated process the embodiment of dynamic systems of meaning into the intuitive mind This deep learning process is detailed in the form of the Developmental Model of Linguaculture Learning DMLL Grounded in dynamic skill theory the DMLL describes four developmental levels of language and culture learning which represents a subtle yet important shift in language and culture pedagogy Rather than asking how to add culture into language education we should be seeking ways to make language and culture learning deeper more integrated embodied experiential and transformational This book provides a theoretical approach including practical examples for doing so

Fostering Culture Through Film Elda Buonanno Foley, Patrizia Comello Perry, 2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments

Interculturality in Chinese Language Education Tinghe Jin, Fred Dervin, 2017-06-27 This book calls for a change in the way interculturality is introduced in Chinese language education while the demand for Chinese language teaching increases around the world The concept of culture as in the phrase Chinese culture has often been one of the main emphases of Chinese language education providing students with facts about China and recipes on how to meet Chinese people and how to behave like them However Chinese culture like all cultures does not constitute a closed system but is constantly evolving and exchanging with other cultures This unique volume comprises studies from around the world that promote intercultural awareness dialogue and encounters in Chinese language education Written in a clear and readable style this book will appeal to a diverse readership from practising and training teachers of Chinese to researchers interested in language and intercultural education

Cultural Competence in Applied Psychology Craig L. Frisby, William T. O'Donohue, 2018-07-25 The first volume of its kind

this provocative book evaluates the construct of cultural competence from multiple perspectives At the intersection of diverse disciplines and domains contributors argue for greater clarity in understanding the cultural competence construct a deeper level of analysis as to its multifaceted components and call for concrete practical objectives and science based means of measurement Serious nuanced discussion addresses challenges strengths and limitations of current cultural competence practice in terms of sociocultural concepts e g race ethnicity and practical concepts e g sensitivity in the therapeutic relationship treatment efficacy In addition contributors identify future directions for research training and practice with the potential to spur the further evolution of this clinically important construct This timely book Critiques the cultural competence construct and its evaluation as it is currently disseminated within applied psychology Compares and contrasts how cultural competence is defined within clinical school and counseling psychology Analyzes difficulties and challenges in understanding the cultural competence construct as evaluated through the lens of closely related fields outside of applied psychology Spotlights complexities in cultural competence issues pertaining to specific populations Sets out implications for education and training offering a detailed outline for an ideal college course in cultural competence With this level of reasoning and rigor Cultural Competence in Applied Psychology is sure to stimulate long overdue dialogue and debate among professionals across a wide variety of fields such as clinical psychology social work child and social psychology psychotherapy school psychology and counseling

Chinese Soft Power and Public Diplomacy in the United States Bilal Zubair, 2023-12-22 This book explores Chinese soft power and public diplomacy and the way that it has played out in the context of the US China relationship As tensions between the two countries have grown in recent years Chinese foreign policy has oscillated between confrontation and conciliation In this work which integrates all facets of China s public diplomacy especially towards United States the author explores the past and future of Chinese soft power in a text that will interest diplomats scholars and journalists
