The volume features an interesting variety of program innovations from across the nation and offers an eclectic group of pedagogical strategies with particular relevance to on campus learning. Teaching Ethics and Values in Public Administration Programs James S. Bowman, Donald C. Menzel, 1998-01-01 Provides fresh perspectives on the teaching of ethics and values in public affairs administration and business in America's schools of higher education.

Handbook of Administrative Ethics Terry Cooper, 2019-02-21 Delineating implications for administrative ethics from other fields such as sociology, psychology and philosophy, this reference provides a comprehensive review of administrative ethics in the public sector. Detailing the context within which contemporary ethics training has developed, the book examines the effectiveness of ethics training, legal and organizational devices for encouraging desired conduct and other topics of particular relevance to the political and social contexts of public administration. Written by over 25 leading scholars in public administration ethics, the book creates a taxonomy for administrative ethics using the categories of modern philosophy.

Public Administration Ethics for the 21st Century J. Michael Martinez, 2009-08-10 This volume establishes a foundation for a uniform code of professional ethics for public administrators in the United States. *Public Administration Ethics for the 21st Century* lays the ethical foundations for a uniform professional code of ethics for public administrators, civil servants and non profit administrators in the US. Martinez synthesizes five disparate schools of ethical thought as to how public administrators can come to know the good and behave in ways that advance the values of citizenship, equity and public interest within their respective organizations. Using case studies, he teaches American administrators how to combine the approaches of all five schools to evaluate and resolve complex ethical dilemmas within the constraints of the U.S. democratic values set. Martinez enunciates the common ethical principles that guide public administrators in their practice within the specific ethical parameters and organizational cultures of a myriad of entities at the federal, state and local levels of government in the United States as well as in non profit organizations. Along the way, Martinez addresses a number of crucial issues including personal gain, conflict of interest, transparency, democratic impartiality, hiring, hierarchical discipline, media relations, partisan pressure, appointments by elected officials and whistle blowing. The striking high profile case studies of Nathan Bedford Forrest, Adolph Eichmann, Lieutenant William Calley and Mary Ann Wright illustrate ethical dilemmas where for

better or worse the individual was at odds with the organization
