Teaching The Tough Ones:

The Online Teaching Survival Guide Judith V. Boettcher, Rita-Marie Conrad, 2010-05-13 The Online Teaching Survival Guide offers faculty a wide array of theory based techniques designed for online teaching and technology enhanced courses. Written by two pioneers in distance education this guidebook presents practical instructional strategies spread out over a four phase timeline that covers the lifespan of a course. The book includes information on a range of topics such as course management, social presence, community building, and assessment. Based on traditional pedagogical theory, The Online Teaching Survival Guide integrates the latest research in cognitive processing and learning outcomes. Faculty with little knowledge of educational theory and those well versed in pedagogy will find this resource essential for developing their online teaching skills. Praise for The Online Teaching Survival Guide: At a time when resources for training faculty to teach online are scarce, Judith Boettcher and Rita Marie Conrad have presented a must read for all instructors new to online teaching. By tying best practices to the natural rhythms of a course as it unfolds, instructors will know what to do when and what to expect. The book is a life raft in what can be perceived as turbulent and uncharted waters. Rena M. Palloff and Keith Pratt, program directors and faculty, Teaching in the Virtual Classroom Program, Fielding Graduate University. Developed from years of experience supporting online faculty, Judith Boettcher and Rita Marie Conrad's book provides practical tips and checklists that should especially help those new to online teaching hit the ground running. Karen Swan Stukel, Distinguished Professor of Educational Leadership, University of Illinois Springfield. This book blends a fine synthesis of research findings with plenty of practical advice. This book should be especially valuable for faculty teaching their first or second course online. But any instructor, no matter how experienced, is likely to find valuable insights and techniques. Stephen C. Ehrmann, director, Flashlight Program for the Study and Improvement of Educational Uses of Technology, vice president, The Teaching, Learning, and Technology Group. Teaching Tough Topics Larry Swartz, 2020-01-15 Teaching Tough Topics shows teachers how to lead students to become caring citizens as they read and respond to quality children's literature. It focuses on topics that can be challenging or sensitive yet are significant in order to build understanding of social justice, diversity, and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty, and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry, and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others, and to the world. An Administrator's Guide to Better Teacher Mentoring William L. Fibkins, 2011-01-16 This book addresses a major gap in the current mentoring programs at the secondary level. Staff development resources are often concentrated on helping new teachers be successful in their early school experience. Yes, a good idea, but a limited vision. Meanwhile, many veteran teachers go without the mentoring assistance they need to be effective classroom teachers. While a few become mentors themselves, many veteran teachers just settle slowly, giving up and become at risk of failure, burnout, and thinking only of retirement. This

book is a call to school superintendents building administrators department chairs school board members union leaders parent leaders and teacher educators to address the need to provide ongoing mentoring for all teachers

Teaching and Learning from the Inside Out: Revitalizing Ourselves and Our Institutions Margaret

Golden, 2012-06-13 By reclaiming the passions of our hearts and exploring insights and ideas we begin a remembering of ourselves. As we begin to reclaim our wholeness we also have the capacity to renew and revitalize our institutions from within. After a long career of writing and speaking about how living in congruence without division between inner and outer life allows for being present with ourselves and those who journey with us, Parker Palmer and colleagues at the Center for Courage Renewal developed a process of shared exploration. This Circle of Trust approach encourages people to live and work more authentically within their families, workplaces, and communities. This issue explores the transformative power of engaging in a Circle of Trust. The authors examine its direct applications to teaching and learning and they explore and discuss the research being done by the facilitators of this work. This is the 130th volume of this Jossey-Bass higher education series. New Directions for Teaching and Learning offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers.

The PLC+ Activator's Guide Dave Nagel, John Almarode, Douglas Fisher, Nancy Frey, Karen

Flories, 2020-04-02 Keeping professional learning communities focused on goals. High functioning professional learning communities don't happen by chance. They require deliberate efforts and structures to ensure efficiency and focus and to ignite action. The first books in the PLC series challenged PLC teams to engage in difficult discussions about equity of access, high expectations for all students, and a commitment to building individual and team efficacy. All of this requires activation and skilled facilitation to move from discussion to action. The PLC Activator's Guide offers a practical approach, real life scenarios, and examples that show activators what to expect and how to navigate their PLC on a successful and collective journey. Readers will find Templates to help activators prepare for PLC meetings, Approaches for fostering and nurturing collaboration, Vignettes from real schools that are implementing PLC, Reflection questions with spaces for activators to record notes, Solutions for addressing barriers that often arise in PLC teams. Activators will find this an essential guide to keeping PLC team discussions goal focused and the work centered on building the collective efficacy of the team.

Teaching and Learning Secondary Science Jerry Wellington, Professor Jerry Wellington, Gren Ireson, 2002-01-31 A comprehensive and critical guide for new and experienced teachers on the teaching and learning of science. It combines an overview of current research with an account of curriculum changes to provide a valuable and practical guide to the business of classroom teaching.

Ragged Company Richard Wagamese, 2009-10-06 Four chronically homeless people: Amelia, One Sky, Timber Double, Dick and Digger seek refuge in a warm movie theatre when a severe Arctic Front descends on the city. During what is supposed to be a one-time event, this temporary refuge transfixes them. They fall in love with this new world, and once the weather clears, continue their trips to the cinema. On one of these outings, they meet Granite, a jaded and lonely journalist who has turned his back on writing the same story over and over again in favour of the escapist qualities of film and an unlikely

friendship is struck A found cigarette package contents some unsmoked cigarettes three 20 bills and a lottery ticket changes the fortune of this struggling set The ragged company discovers they have won 13 5 million but none of them can claim the money for lack proper identification Enlisting the help of Granite their lives and fortunes become forever changed Ragged Company is a journey into both the future and the past Richard Wagamese deftly explores the nature of the comforts these friends find in their ideas of home as he reconnects them to their histories
