Technique In Fiction:

Fiction Writing Technique Robert Saunders Dowst, 2015-05-30 Many books have been written on fiction technique and the chief excuse for the present addition to the number is the complexity of the subject Its range is so wide it calls for so many and so different capacities in one attempting to discuss it that a new work has more than a chance to meet at least two or three deficiencies in all other treatments I believe that the chief deficiency in most works on fiction technique is that the author unconsciously has slipped from the viewpoint of a writer of a story to that of a reader Now a reader without intention to try his own hand at the game is not playing fair in studying technique and a book on technique has no business to entertain him Accordingly I have striven to keep to the viewpoint of one who seeks to learn how to write stories and have made no attempt to analyze the work of masters of fiction for the sake of the analysis alone Get Your Copy Today

Technique In Fiction Robie Macauley, George Lanning, 2003-12-31 Here is one of the most intelligent and useful guides to the craft of fiction ever published Acknowledged by teachers students and writers as the indispensable book in the field *Technique in Fiction* has been in print for over two decades For this fully updated second edition Robie Macauley and George Lanning have rewritten their discussions of the major technical questions and practices of fiction setting plot characterization point of view style pace and tone and theme These and other crucial points are illustrated with examples from Tolstoy Forster and James through contemporary masters such as Carver Updike and Beattie The result is a discerning guide to the essentials of writing fiction in the author s words It is a how it was done book and also a how it wasn t done book

The Technique of Fiction Writing Robert Saunders Dowst, 2015-09-07 One cannot dabble long at architecture or the graphic arts without gaining keen realization of the fact that conception in its elaborative aspects is as much a part and phase of technique as the executive handling of materials But the art of literature and more narrowly the art of fiction deal with materials other than those employed in the other arts words not colors or marble nor yet sounds are the resource of the story teller to precipitate his conception in enduring form and words are at once frank and mysterious things Introduction I The Writer Himself II The Choice of Matter III Conceptive Technique Story Types IV Conceptive Technique Plot and Situation V Constructive Technique of Narration VI Executive Technique of Narration VII Executive Technique of Narration Continued VIII Description IX Speech X Portrayal of Character XI Atmosphere XII The Short Story XIII The Novel XIV Conclusion Appendix Many books have been written on fiction technique and the chief excuse for the present addition to the number is the complexity of the subject Its range is so wide it calls for so many and so different capacities in one attempting to discuss it that a new work has more than a chance to meet at least two or three deficiencies in all other treatments I believe that the chief deficiency in most works on fiction technique is that the author unconsciously has slipped from the viewpoint of a writer of a story to that of a reader Now a reader without intention to try his own hand at the game is not playing fair in studying technique and a book on technique has no business to entertain him Accordingly I have striven to keep to the viewpoint of

one who seeks to learn how to write stories and have made no attempt to analyze the work of masters of fiction for the sake of the analysis alone Such analysis is interesting to make and also interesting to read but it is not directly profitable to the writer It is indirectly profitable of course but it will give very little direct aid to one who has a definite story idea and wishes to be told the things he must consider in developing it and writing the story or to one who wishes to be told roughly how he should go about the business of finding real stories In fact I believe that discussion and analysis of perfect work has a tendency to chill the enthusiasm of the beginning writer What he chiefly needs is to be told the considerations he must hold in mind in conceiving developing and writing a story The rest lies with his own abilities and capacities to work intelligently and to take pains

TECHNIQUE OF FICTION WRITING ROBERT SAUNDERS. DOWST, 2018 *The Technique of Fiction Writing* Robert Dowst, 2011-04-29 The art of fiction is the art both of the tale and of the story fictions that differ radically Their most striking difference is stated in the following pages here I can only remark broadly that the tale is episodal consisting of a fortuitous series of incidents without essential connection or relation except that they all happened to happen to the characters while the story is a whole in that each incident functions in the development of a plot or dramatic problem If prevision and full elaboration of his basic idea are essential to the writer of a tale they are doubly essential to the writer of a story simply

because a story is a whole and the result of careful co ordination of parts Even if the writer of some particular story has not worked along the lines of a fully elaborated design the story actually will manifest co ordination of parts or else be worthless A story is more than a series of incidents it is a series of incidents significant in relation to character Its writer cannot set to work with an eye solely to the physical spectacle and follow after with his pen he must prepare his people as well as the events a task of cunning calculation He must have an eye to many other matters but this is not the place to state them The matter of character is the matter significant here because the whole difference between tale and story is made by the presence or absence of relation between events and personality And it is certain that the writer of a story cannot hope to do the best work if he postpones until the moment of actual writing the task of moulding and elaborating his basic idea with a view to giving it maximum effect The task to express perfectly in a verbal sense is difficult enough to claim the undivided attention of the ablest artist but undivided attention cannot be given the matter of verbal expression by a writer who shapes his substance and picks his words at one and the same time Either word or substance must suffer *Technique In Fiction, Second Edition* Robie Macauley, George Lanning, 1990-09-15 Here is one of the most intelligent and useful guides to the craft of fiction ever published Acknowledged by teachers students and writers as the indispensable book in the field *Technique in Fiction* has been in print for over two decades For this fully updated second edition Robie Macauley and George Lanning have rewritten their discussions of the major technical questions and practices of fiction setting plot characterization point of view style pace and tone and theme These and other crucial points are illustrated with examples from Tolstoy Forster and James through contemporary masters such as Carver Updike and Beattie The result is a discerning guide to the essentials of writing fiction in the author s words It is a how it was done book and also a how it wasn t done book Book jacket **The Technique of the Novel** Carl Henry Grabo, 1928 **The Technique of the Novel** Charles Francis Horne, 1908
