Augustine's Problem Jeff Nicoll, 2016-06-03

Augustine's Problem provides a new approach to St Augustine's life and doctrine hypothesizing that his problem was not sexual addiction but sexual impotence. For Augustine the problem with sex was not the seductive nature of women but the unpredictability of desire which can induce an unwanted erection or fail to provide one when even the mind would choose to have sex. He extends his personal incapacity to a general impotence of the will: we can never without grace choose any good. Just as the impotent man cannot work on his impotence, we cannot work on our salvation; only God can make a difference and predestines a tiny elect. The disobedience of the Garden is transferred to the disobedience of the male member, guaranteeing that the sin of Eden is transferred in conception as original sin. The most controversial elements of Augustine's theology are all linked to the theme of impotence as expressed in his writings from the *Confessions* to the anti-Pelagian works written at the end of his life.

Sins Against the Children Audry Browne, 2001-05-29

Jenny had always been able to see the colors of the children. There were those whose colors were rich and radiant but it was the others, the children whose colors were dark and suffocating that she sought out. Their feelings permeated her mind and filled her with their misery. It was these children, these with their wildly swirling colors that she wagered her very life for. Nothing short of death would ever make her stop the sins against the children.

Through the Eyes of a Child Anne Richards, Peter Privett, 2009

A landmark work of theology exploring 14 key theological themes such as creation, grace, death and judgement from the perspective of children. Challenging conventional readings of theology, this work challenges those who care about children and their place in the world and the church.
