Robert E Stillman explores this paradox in relation to Philip Sidney's *Defence of Poesy*, the first Renaissance text to argue for the preeminence of poetry as an autonomous form of knowledge in the public domain. Offering a fresh interpretation of Sidney's celebration of fiction making, Stillman locates the origins of his poetics inside a neglected historical community, the intellectual elite associated with Philip Melanchthon, leader of the German Reformation after Luther, the so-called Philippists. As a challenge to traditional Anglo-centric scholarship, his study demonstrates how Sidney's education by Continental Philippists enabled him to dignify fiction making as a compelling form of public discourse, compelling because of its promotion of powerful new concepts about reading and writing, its ecumenical piety, and its political ambition to secure through natural law from universal Ideas freedom from the tyranny of confessional warfare. Intellectually ambitious and wide-ranging, this study draws together various elements of contemporary scholarship in literary, religious, and political history in order to afford a broader understanding of the *Defence* and the cultural context inside which Sidney produced both his poetry and his poetics. **Sir Philip Sidney** Dorothy Connell, 1977 **Major Tudor Authors** Alan Hager, 1997-06-18 The Tudor era, 1485-1603, was one of the most culturally significant periods in history. Under three generations of Tudor rulers, the era witnessed the advent of humanism, the birth of the Reformation, and the rise of the British Empire. The literature of the period is marked by complexity of thought and form and reflects the political, religious, and cultural changes of the era. This reference book surveys the literature of Tudor England. Included are alphabetically arranged entries for nearly 100 authors who wrote between 1485 and 1603. Some figures covered are widely taught, such as Shakespeare, Donne, and Spenser. Others are less well known, such as Edward Fairfax and Abraham Fraunce. The work includes entries for notable women writers of the period, many of whom have been neglected until recent years. Also included are entries for continental writers such as Ariosto, Tasso, Calvin, and Erasmus, whose writings were influential in England. Entries are written by expert contributors and contain valuable bibliographies of primary and secondary sources. Included are entries for nearly 100 people who wrote between 1485 and 1603. The entries are written by expert contributors and are arranged alphabetically to facilitate use. Some

of the authors profiled are major canonical figures such as Shakespeare Spenser and Donne But the volume also includes a significant number of entries for women writers whose work has been unjustly disregarded until recent years While most of the authors were from England the volume contains entries on figures such as Erasmus who though born in another country wrote important works in England and on writers such as Machiavelli Calvin Ariosto and Tasso whose works were almost immediately adopted translated or otherwise made part of Tudor culture Each entry provides a brief biography which is followed by a discussion of major works and themes a review of the author s critical reception and a bibliography of primary and secondary sources
