Dialogue and Difference M. Waller, S. Marcos, 2016-09-27 Calling for inclusion and dialogue these essays by an international group of feminist scholars and activists stress the need to put into relation seemingly discrepant approaches to reality and to scholarship in order to build coalitions across the usual North South and East West divides This diverse group of authors who spent fourteen weeks working collaboratively dispense with unity and seek instead to use dialogue and difference in their production of knowledge about effective political action The dialogues materialized here among women's movements that have emerged within different contexts and cosmologies take feminisms challenges to contemporary corporate globalization in new empirical and theoretical directions

Feminism and Modernity

in Anglophone African Women's Writing Dobrota Pucherová, 2022-07-29 This book re reads the last 60 years of Anglophone African women's writing from a transnational and trans historical feminist perspective rather than postcolonial from which these texts have been traditionally interpreted Such a comparative frame throws into relief patterns across time and space that make it possible to situate this writing as an integral part of women's literary history Revisiting this literature in a comparative context with Western women writers since the 18th century the author highlights how invocations of tradition have been used by patriarchy everywhere to subjugate women the similarities between women's struggles worldwide and the feminist imagination it produced The author argues that in the 21st century African feminism has undergone a major epistemic shift from a culturally exclusive to a relational feminism that conceptualizes African femininity through the risky opening of oneself to otherness transculturation and translation Like Western feminists in the 1960s contemporary African women writers are turning their attention to the female body as the prime site of women's oppression and freedom reframing feminism as a demand for universal human rights and actively shaping global discourses on gender modernity and democracy The book will be of interest to students and researchers of African literature but also feminist literary scholars and comparatists more generally

Against Empire Zillah Eisenstein, 2004-08 In *Against Empire* Zillah Eisenstein extends her critique of neoliberal globalization Faced with an aggressive American empire hostage to ideological extremism and violently promoting the narrowest of interests she looks to a global anti war movement to counter US power

Women Empowerment and the Feminist Agenda in Africa Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2023-10-24 This book argues that African women's lived experiences are often spoken about authoritatively by people who are not included within this demographic relegating these women to the role of spectators in their own stories The dominant narratives of African womanhood legitimized by intellectual discourse are neither written by African women nor Africans in general This book seeks to place feminism in Africa into its historical context by revisiting the experiences practices vision and theories of feminism and gender in Africa It is intended to serve as a comprehensive introduction to the field and provide a starting point for further and more advanced study of the nexus of feminism gender and development in Africa Women Empowerment and the Feminist Agenda in Africa is designed to initiate post graduate research and studies in the social sciences for directed and critical inquiry into the nature of feminist and gender politics and power relations in Africa It is written for researchers academics and advanced tertiary studies although professional gender and feminist organizations especially those in Africa or focusing on Africa will also find a wealth of information The book is recommended for university libraries post graduate students and staff the non governmental community in Africa women movement organizations in Africa independent researchers and academics and the African community at large

Black Feminist Thought, 30th Anniversary Edition Patricia Hill Collins, 2022-05-16 In the first major update to this classic book in many years Collins traces the history and contours of Black women's ideas and actions to argue that Black feminist thought is the discourse that fosters Black women's survival persistence and success against the odds Through meticulous research that synthesizes the important intellectual work done by Black women Collins's timely update demonstrates that Black women's ideas and actions are not marginal concerns but rather are central to the future of social justice within democratic societies The combination of the text's classic arguments and a preface and epilogue written expressly for this edition speak to people who have long been working on social justice and to a new generation of readers who are encountering the ideas and actions of Black women for the first time For this 30th year anniversary edition Patricia Hill Collins examines how the ideas in this classic text speak to contemporary social issues and identifies the directions needed for the future of Black feminist thought

Banjo, 2018-07-04 This volume gathers scholarship from varying disciplinary perspectives to explore media owned or created by members of the African diaspora examine its relationship with diasporic audiences and consider its impact on mainstream culture in general Contributors highlight creations and contributions of people of the African diaspora the interconnections of Black American and African centered media and the experiences of audiences and users across the African diaspora positioning members of the Black and African Diaspora as subjects of their own narratives active participants and creators In so doing this volume addresses issues of identity culture audiences and global influence Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Postcolonial Imaginations and Moral Representations in African Literature and Culture* Chielozona Eze, 2011-12-16 The postcolonial African culture as it is discoursed in the academia is largely influenced by Africa's response to colonialism To the degree that it is a response it is to considerably reactive and lacks forceful moral incentives for social critical consciousness and nation building Quite on the contrary it allows especially African political leaders to luxuriate in the delusions of moral rectitude imploring at will the evil of imperialism as a buffer to their disregard of their people This book acknowledges the social and psychological devastations of colonialism on the African world It however argues that the totality of African intellectual response to colonialism and Western imperialism is

equally if not more damaging to the African world In what ways does the average African leader indeed the average African judge and respond to his world How does he conceive of his responsibility towards his community and society The most obvious impact of African response to colonialism is the implicit search for a pristine innocent paradigm in for instance literary philosophical social political and gender studies This search has its own moral implication in the sense that it makes the taking of responsibility on individual and social level highly difficult Focusing on the moral impact of responses to colonialism in Africa and the African Diaspora this book analyzes the various manifestations of delusions of moral innocence that has held the African leadership from the onerous task of bearing responsibility for their countries it argues that one of the ways to recast the African leaders responsibility towards Africa is to let go on the one hand the gaze of the West and on the other of the search for the innocent African experience and cultures Relying on the insights of thinkers such as Frantz Fanon Wole Soyinka Kwame Anthony Appiah Achille Mbembe and Wolfgang Iversen this book suggests new approaches to interpreting African experiences It discusses select African works of fiction as a paradigm for new interpretations of African experiences
