Anne Vilen, 1989 Focusing on medieval women with a wide range of occupations and life styles the interdisciplinary essays in this collection examine women's activities within the patriarchal structures of the time Individual essays explore women's challenges to a sexual ideology that confined them strictly to the roles of wives mothers and servants Also included are sections on women and work cultural production and literacy and religious life These essays provide a greater understanding of the ways in which gender has played a part in determining relations of power in Western cultures This volume makes a vital contribution to the current scholarship about women in the Middle Ages

A Cultural History of Women in the Middle Ages Kim M. Phillips, 2015-04-02 The medieval era has been described as the Age of Chivalry and the Age of Faith but also as the Dark Ages Medieval women have often been viewed as subject to a punishing misogyny which limited their legal rights and economic activities but some scholars have claimed they enjoyed a rough and ready equality with men The contrasting figures of Eve and the Virgin Mary loom over historians' interpretations of the period 1000-1500 Yet a wealth of recent historiography goes behind these conventional motifs showing how medieval women's lives were shaped by status age life stage geography and religion as well as by gender A Cultural History of Women in the Middle Ages presents essays on medieval women's life cycle bodies and sexuality religion and popular beliefs medicine and disease public and private realms education and work power and artistic representation to illustrate the diversity of medieval women's lives and constructions of femininity

understanding of how women high and low fared in terms of religion work family law culture and politics and public life Even though medieval women were divided by social class religion age marital status place and period they were all subject to an overarching patriarchal structure and sometimes could transcend their inferior status Numerous examples of these exceptional women and their words are included Chapter 1 examines religion focusing on women s roles in the early Christian church the lives of nuns and other professional religious women such as anchoresses and Beguines the participation of Christian laywomen and the experiences of Jewish and Islamic women in Western Europe The second chapter examines women s work looking in turn at the kinds of work performed by peasant women townswomen and noblewomen Women s roles within the family form the subject of the third chapter This chapter follows women throughout the typical lifecycle from girl to widow examining the expectations and experiences of women at each stage Chapter 4 Women and the Law focuses on the ways in which laws both restricted and protected women It also considers the crimes with which women were most often charged and surveys laws regarding marriage and widowhood Women s roles in creative arts form the basis of the fifth chapter Women and Culture This chapter examines women s roles as artists authors composers and patrons as well as investigating the ways in which women were represented in works produced by men Finally chapter 6 discusses women s experiences in politics and public life While women as a group were typically banned from holding positions of public authority some found ways to get around this stricture while others were able to exercise power behind the scenes The final chapter thus encapsulates a major theme of this book the interplay between broader patriarchal forces that limited women s status and autonomy and the role of individuals who were able to overcome or circumvent such forces Medieval women were as a group subordinate to their husbands and fathers but certain women under certain circumstances evaded subordination

Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen,2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms **Authority**

and the Female Body in the Writings of Julian of Norwich and Margery Kempe Liz Herbert McAvoy,2004 The three archetypal representations of woman in the middle ages as mother as whore and as wise woman are all clearly present in the writings of Julian of Norwich and Margery Kempe in examining the ways in which both writers make use of these female categories Dr McAvoy establishes the extent of their success in resolving the tension between society s expectations of them and their own lived experiences as women and writers Jacket *The Writings of Medieval Women* Marcelle

Patricia Wittberg,1994-10-25 *Tradition as Mediation: Louis I. Kahn* Dana Margalith,2018-07-11 This book explores Louis I Kahn s approach to tradition as revealed in two of his important unbuilt projects Focusing on Kahn s designs for the

Dominican Motherhouse of St Catherine de Ricci Media Pennsylvania 1965 1969 and the Hurva Synagogue Jerusalem Israel 1967 1974 the book challenges prevailing aesthetic and methodological assessments of Kahn's use of tradition It reveals how an authentic and critical theoretical historical and humanistic study of tradition nourished Kahn's designs enabling him to mediate historical rituals ideas and beliefs and to develop innovative designs rooted deep in human culture while addressing real modern concerns The book evaluates Kahn's works as a creative recreation and re-interpretation of the past shedding light on the potential value of the meaningful consideration of tradition in modern times *Inquisition and Knowledge, 1200-1700* Peter Biller, L. J. Sackville, 2022 Essays considering how information could be used and abused in the service of heresy and inquisition The collection curation and manipulation of knowledge were fundamental to the operation of inquisition Its coercive power rested on its ability to control information and to produce authoritative discourses from it a fact not lost on contemporaries or on later commentators Understanding that relationship between inquisition and knowledge has been one of the principal drivers of its long historiography Inquisitors and their historians have always been preoccupied with the process by which information was gathered and recirculated as knowledge The tenor of that question has changed over time but we are still asking how knowledge was made and handed down to them and to us and how their sense of what was interesting or useful affected their selection This volume approaches the theme by looking at heresy and inquisition in the Middle Ages and also at how they were seen in the sixteenth and seventeenth centuries The contributors consider a wide range of medieval texts including papal bulls sermons polemical treatises and records of interrogations both increasing our knowledge of medieval heresy and inquisition and at the same time delineating the twisting of knowledge This polarity continues in the early modern period when scholars appeared to advance learning by hunting for medieval manuscripts and publishing them or ensuring their preservation through copying them but at the same time as some of the chapters here show these were proof texts in the service of Catholic or Protestant polemic As a whole the collection provides a clear view of and invites readers reflection on the shading of truth and untruth in medieval and early modern knowledge of heresy and inquisition Contributors Jessalynn Lea Bird Harald Bolluck Irene Bueno J rg Feuchter Richard Kieckhefer Pawel Kras Adam Poznanski Luc Racaut Alessandro Sala Shelagh Sneddon Michaela Valente Reima V lim ki **A History of Jewish Gynaecological Texts in the Middle Ages** Ron Barkai, 1998-02-26 This study fills a major gap in the history of medicine namely the history of medieval Hebrew medicine in particular of Jewish women's medicine A general introduction to the history of medieval Jewish medicine its origins in Muslim countries the main Arabic and Judeo Arabic texts and the renaissance of Hebrew as a language of science in the 12th 15th centuries is followed by a survey and analysis of the 15 extant medieval Jewish gynaecological texts including translations from Greek Latin and Arabic as well as original Hebrew treatises and a comparison of the particular characteristics of Jewish gynaecology to the Latin and Arabic traditions In the second part of the work the author presents critical editions with translations of six medieval Jewish gynaecological texts
