Alworth, 2018-11-20 Site Reading offers a new method of literary and cultural interpretation and a new theory of narrative setting by examining five sites supermarkets dumps roads ruins and asylums that have been crucial to American literature and visual art since the mid twentieth century Against the traditional understanding of setting as a static background for narrative action and character development David Alworth argues that sites figure in novels as social agents Engaging a wide range of social and cultural theorists especially Bruno Latour and Erving Goffman Site Reading examines how the literary figuration of real material environments reorients our sense of social relations To read the sites of fiction Alworth demonstrates is to reveal literature as a profound sociological resource one that simultaneously models and theorizes collective life Each chapter identifies a particular site as a point of contact for writers and artists the supermarket for Don DeLillo and Andy Warhol the dump for William Burroughs and Mierle Laderman Ukeles the road for Jack Kerouac Joan Didion and John Chamberlain the ruin for Thomas Pynchon and Robert Smithson and the asylum for Ralph Ellison Gordon Parks and Jeff Wall and shows how this site mediates complex interactions among humans and nonhumans The result is an interdisciplinary study of American culture that brings together literature visual art and social theory to develop a new sociology of literature that emphasizes the sociology in literature **Less-Supervised Segmentation with CNNs** Jose

Dolz, Ismail Ben Ayed, Christian Desrosiers, 2025-08-29 *Less Supervised Segmentation with CNNs Scenarios Models and Optimization* reviews recent progress in deep learning for image segmentation under scenarios with limited supervision with a focus on medical imaging The book presents main approaches and state of the art models and includes a broad array of applications in medical image segmentation including healthcare oncology cardiology and neuroimaging A key objective is to make this mathematical subject accessible to a broad engineering and computing audience by using a large number of intuitive graphical illustrations The emphasis is on giving conceptual understanding of the methods to foster easier learning This book is highly suitable for researchers and graduate students in computer vision machine learning and medical imaging Presents a good understanding of the different weak supervision models i e loss functions and priors and the conceptual connections between them providing an ability to choose the most appropriate model for a given application scenario Provides knowledge of several possible optimization strategies for each of the examined losses giving the ability to choose the most appropriate optimizer for a given problem or application scenario Outlines the main strengths and weaknesses of state of the art approaches Gives the tools to understand and use publicly available code as well as customize it for specific objectives

Proceedings of the Fifth SIAM International Conference on Data Mining Hillol Kargupta, 2005-04-01

The Fifth SIAM International Conference on Data Mining continues the tradition of providing an open forum for the presentation and discussion of innovative algorithms as well as novel applications of data mining Advances in information technology and data collection methods have led to the availability of large data sets in commercial enterprises and in a wide variety of scientific and engineering disciplines The field of data mining draws upon extensive work in areas such as statistics machine learning pattern recognition databases and high performance computing to discover interesting and previously unknown information in data This conference results in data mining including applications algorithms software and systems

 American Usage has established itself as the preeminent guide to the effective use of the English language Brimming with
 witty erudite essays on troublesome words and phrases this book authoritatively shows how to avoid the countless pitfalls
 that await unwary writers and speakers whether the issues relate to grammar punctuation word choice or pronunciation Now
 in the third edition readers will find the Garner s Language Change Index which registers where each disputed usage in
 modern English falls on a five stage continuum from nonacceptability to the language community as a whole to acceptability
 giving the book a consistent standard throughout Garner s Modern American Usage 3e is the first usage guide ever to
 incorporate such a language change index and the judgments are based both on Garner s own original research in linguistic
 corpora and on his analysis of hundreds of earlier studies Another first in this edition is the panel of critical readers 120 plus
 commentators who have helped Garner reassess and update the text so that every page has been improved *Rough Sets
 and Knowledge Technology* Peng Wen, Yuefeng Li, Lech Polkowski, Yiyu Y. Yao, Shusaku Tsumoto, 2009-07-01 This book
 constitutes the refereed proceedings of the Fourth International Conference on Rough Sets and Knowledge Technology RSKT
 2009 held in Gold Coast Australia in July 2009 The 85 revised full papers papers presented together with 3 keynote papers
 and 2 special sessions were carefully reviewed and selected from 229 submissions The papers are organized in topical
 sections on rough sets and computing rough sets and data reduction data mining and knowledge discovery granular
