pushes boundaries It is a powerful reminder of who and where we are on the cultural map Feminist Geopolitics Deborah P. Dixon, 2016-04-15 What can unfold from an engagement of feminist issues concerns and practices with the geopolitical How does feminism allow for a reconfiguration of how these two elements the geo and the political are understood and related What kinds of objects can be located and put into motion What kinds of relations can be drawn between these What kinds of practice become valued And what is glossed or rendered absent in the process In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space Feminist Geopolitics feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence *Ecopoiesis* Stephen K.
