The Egyptians Sergio Donadoni, 1997-06-23 *The Egyptians* is a vibrant accessible introduction to the people who lived along the Nile for almost thirty five centuries In this collection of essays eleven internationally renowned Egyptologists present studies of ancient Egyptians arranged by social type slaves craftsmen priests bureaucrats the pharaoh peasants and women among others These individual essays are filled with a wealth of historical detail that both informs and fascinates we learn for example that Egyptian peasants could not afford burial their corpses were abandoned on the desert fringe and that it was the bureaucrats who made the Egyptian system tick the pyramids could not have been built without them Read consecutively the portraits merge to create a larger picture of Egyptian culture state and society The framework of the Egyptian state in particular is touched upon in each essay describing the meticulous administration and well organized hierarchical system that fostered centuries of stability and prosperity
