Gregory, 1984-05-01 Contains well researched and specialized studies in the history of these two important East Asian Buddhist traditions It presents some of the best work of younger scholars who are making available to the English speaking world the fruits of Japanese scholarship and building upon them Religious Studies Review

Probing the Sutras Guy Gibbon, 2022-02-25 A compact summary like Probing the Sutras has been sorely needed for some time as more and more Westerners have dipped into meditation without any understanding of its predominantly Buddhist scriptural underpinning This concise well informed introduction to the history and contents of eleven seminal Buddhist sutras also provides suggestions for reflection meditation and practical applications related to the key teachings of each scripture Readers of Probing the Sutras will be able to develop a framework for understanding Buddhist doctrines and see the unique pearls of wisdom contained within each sutra

Tibetan Renaissance Ronald M. Davidson, 2008-01-01 How did a society on the edge of collapse and dominated by wandering bands of armed men give way to a vibrant Buddhist culture led by yogins and scholars Ronald M Davidson explores how the translation and spread of esoteric Buddhist texts dramatically shaped Tibetan society and led to its rise as the center of Buddhist culture throughout Asia replacing India as the perceived source of religious ideology and tradition During the Tibetan Renaissance 950 1200 C E monks and yogins translated an enormous number of Indian Buddhist texts They employed the evolving literature and practices of esoteric Buddhism as the basis to reconstruct Tibetan religious cultural and political institutions Many translators achieved the de facto status of feudal lords and while not always loyal to their Buddhist vows these figures helped solidify political power in the hands of religious authorities and began a process that led to the Dalai Lama's theocracy Davidson's vivid portraits of the monks priests popular preachers yogins and aristocratic clans who changed Tibetan society and culture further enhance his perspectives on the tensions and transformations that characterized medieval Tibet

The Lamp for the Eye of Contemplation Sangs-rgyas-ye-shes, 2023-01-03 The book provides a complete translation of a groundbreaking Tibetan treatise on contemplation the Samten Migdrön by Nubchen Sangye Yeshe 10th century This is one of the principal sources for our understanding of the various currents of meditation transmitted to Tibet during the early spread of Buddhism to that country It offers a detailed window into the ways in which one of the most learned masters of the early Tibetan Buddhist tradition made sense of the different forms of meditation practiced in his day

Meditation and Culture Halvor Eifring, 2015-09-24 Behind the stereotype of a solitary meditator closing his eyes to the world meditation always takes place in close interaction with the surrounding culture Meditation and Culture The Interplay of Practice and Context explores cases in which the relation between meditative practice and cultural context is particularly complex The internationally renowned contributors discuss practices that travel from one culture to another or are surrounded by competing cultures They explore cultures that bring together competing practices or that are themselves mosaics of

elements of different origins They seek to answer the question What is the relationship between meditation and culture The effects of meditation may arise from its symbolic value within larger webs of cultural meaning as in the contextual view that still dominates cultural and religious studies They may also be psychobiological responses to the practice itself the cultural context merely acting as a catalyst for processes originating in the body and mind of the practitioner Meditation and Culture gives no single definitive explanation but taken together the different viewpoints presented point to the complexity of the relationship

Tibetan Zen Sam van Schaik, 2015-08-25 A groundbreaking study of the lost tradition of Tibetan Zen containing the first translations of key texts from one thousand years ago Banned in Tibet forgotten in China the Tibetan tradition of Zen was almost completely lost to us According to Tibetan histories Zen teachers were invited to Tibet from China in the 8th century at the height of the Tibetan Empire When doctrinal disagreements developed between Indian and Chinese Buddhists at the Tibetan court the Tibetan emperor called for a formal debate When the debate resulted in a decisive win by the Indian side the Zen teachers were sent back to China and Zen was gradually forgotten in Tibet This picture changed at the beginning of the 20th century with the discovery in Dunhuang in Chinese Central Asia of a sealed cave full of manuscripts in various languages dating from the first millennium CE The Tibetan manuscripts dating from the 9th and 10th centuries are the earliest surviving examples of Tibetan Buddhism Among them are around 40 manuscripts containing original Tibetan Zen teachings This book translates the key texts of Tibetan Zen preserved in Dunhuang The book is divided into ten sections each containing a translation of a Zen text illuminating a different aspect of the tradition with brief introductions discussing the roles of ritual debate lineage and meditation in the early Zen tradition Van Schaik not only presents the texts but also explains how they were embedded in actual practices by those who used them *Historical Dictionary of Chan Buddhism* Youru Wang, 2017-06-27 The popular name for Chan Buddhism in the West is Zen Buddhism as it was Japanese scholars who first introduced Chan Buddhism to the West with this translation Indeed chan is a shortened form of the Chinese word channa rendered from the Sanskrit word dhyana which denotes practices of the concentration of the mind through meditation or contemplation Although rooted in the Indian tradition of yoga which aims at the unification of the individual with the divine meditative concentration became integrated into the Buddhist path to enlightenment as one of the three learnings sanxue of Buddhism Early Buddhist or the so called Hinayana Buddhist scriptures include the teachings on four stages of meditation four divine abodes four formless meditations the tranquility samatha and insight vipassana meditations and so on Early Buddhist communities commonly practiced these meditations along with the moral disciplines and the study of the scriptures and doctrines Mahayana Buddhism in India and East Asia continued the practice of meditation as one of the six perfections or virtues of the bodhisattva path In this general context some eminent monks might have composed scriptures treatises for the training of meditation or have become more famed with meditation However the school of Chan is more than just a group of meditation practitioners As one of the Chinese Buddhist schools it involves its own

ideology its own community and its own genealogical history serving to establish its own identity The Historical Dictionary of Chan Buddhism contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities schools texts vocabularies doctrines rituals temples events and other practices This book is an excellent resource for students researchers and anyone wanting to know more about Chan Buddhism

The Mystique of Transmission Wendi Leigh Adamek, 2007 Adamek provides a reading of the late 8th century Chan Zen Buddhist Lidai fabao ji Record of the Dharma Jewel Through the Generations and provides its first English translation The work combines a history of the transmission of Buddhism and Chan in China with an account of the 8th century Chan master Wuzhu in Sichuan

The Zen Canon Dale S. Wright, 2004-03-25 Bodhidharma its first patriarch reputedly said that Zen Buddhism represents a special transmission outside the teaching Without reliance on words and letters This saying along with the often perplexing use of language and silence by Zen masters gave rise to the notion that Zen is a lived religion based strictly on non linguistic practice and lacking a substantial canon of sacred texts Even those who recognize the importance of Zen texts commonly limit their focus to a few select texts without recognizing the wide variety of Zen literature This collection of previously unpublished essays argues that Zen actually has a rich and varied literary heritage Among the most significant textual genres are hagiographic accounts and recorded sayings of individual Zen masters koan collections and commentaries and rules for monastic life During times of political turmoil in China and Japan these texts were crucial to the survival and success of Zen and they have for centuries been valued by practitioners as vital expressions of the truth of Zen This volume offers learned yet accessible studies of some of the most important classical Zen texts including some that have received little scholarly attention and many of which are accessible only to specialists Each essay provides historical literary and philosophical commentary on a particular text or genre Together they offer a critique of the de facto canon that has been created by the limited approach of Western scholarship and demonstrate that literature is a diverse and essential part of Zen Buddhism

Contributions to the Cultural History of Early Tibet Matthew Tom Kapstein, Brandon Dotson, 2007 Aufsatzsammlung *Religion and Chinese Society: Ancient and medieval China* John Lagerwey, 2004 These volumes contain a selection of twenty one essays presented in a

conference convened jointly by the Ecole française d'Extrême Orient and the Centre for the Study of Religion and Chinese Society of the Chinese University of Hong Kong on Religion and Chinese Society The Transformation of a Field and Its Implications for the Study of Chinese Culture The collection provides as wide a coverage as possible of recent research in the history of Chinese religion and seeks to draw some tentative conclusions about the implications for the study of Chinese religion and society in general **Tsung-mi and the Sinification of Buddhism** Peter N. Gregory, 2002-04-30 This study of Tsung mi is part of the Studies in East Asian Buddhism series Author Peter Gregory makes extensive use of Japanese secondary sources which complements his work on the complex Chinese materials that form the basis of the study

Cumulated Index Medicus, 1980 Science and Civilisation in China Joseph Needham, 1991 *Buddhist Historiography in China* John Kieschnick, 2022-07-29 Winner 2023 Toshihide Numata Book Award Numata Center for Buddhist Studies at the University of California Berkeley Since the early days of Buddhism in China monastics and laity alike have expressed a profound concern with the past In voluminous historical works they attempted to determine as precisely as possible the dates of events in the Buddha's life seeking to iron out discrepancies in varying accounts and pinpoint when he delivered which sermons Buddhist writers chronicled the history of the Dharma in China as well compiling biographies of eminent monks and nuns and detailing the rise and decline in the religion's fortunes under various rulers They searched for evidence of karma in the historical record and drew on prophecy to explain the past John Kieschnick provides an innovative expansive account of how Chinese Buddhists have sought to understand their history through a Buddhist lens Exploring a series of themes in mainstream Buddhist historiographical works from the fifth to the twentieth century he looks not so much for what they reveal about the people and events they describe as for what they tell us about their compilers understanding of history Kieschnick examines how Buddhist doctrines influenced the search for the underlying principles driving history the significance of genealogy in Buddhist writing and the transformation of Buddhist historiography in the twentieth century This book casts new light on the intellectual history of Chinese Buddhism and on Buddhists understanding of the past

One-Volume Libraries: Composite and Multiple-Text Manuscripts Michael Friedrich, Cosima Schwarke, 2016-11-07 Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i.e. they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa

the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses
