Studies In Chinese Philosophy And Philosophical Literature

Edward Slingerland

Studies In Chinese Philosophy And Philosophical Literature:

Studies in Chinese Philosophy and Philosophical Literature Angus Charles Graham, 1990-01-01 Graham addresses several fundamental problems in classical Chinese philosophy and in the nature and structure of the classical Chinese language. These inquiries and reflections are both broad based and detailed. Two sources of continuity bring these seemingly disparate parts into a coherent and intelligible whole. First, Graham addresses that set of fundamental philosophical questions that have been the focus of dispute in the tradition and that have defined its character: What is the nature of human nature? What can we through linguistic and philosophical scrutiny discover about the date and composition of some of the major texts? What sense can we make of the Kung sun Lung sophistries? A second source of coherence is Graham's identification and articulation of those basic and often unconscious presuppositions that ground our own tradition. By so doing, he enables readers to break free from the limits of their own conceptual universe and to explore in the Chinese experience a profoundly different world view.

The Bloomsbury Research Handbook of Chinese Philosophy Methodologies Sor-hoon Tan, 2016-08-25 The Bloomsbury Research Handbook of Chinese Philosophy Methodologies presents a new understanding of the changing methods used to study Chinese philosophy. By identifying the various different approaches and discussing the role and significance of philosophical methods in the Chinese tradition, this collection identifies difficulties and exciting developments for scholars of Asian philosophy. Divided into four parts, the nature of Chinese philosophical thought is illuminated by discussing historical developments, current concerns, and methodological challenges. Surveying recent methodological trends, this research companion explores and evaluates the methodologies that have been applied to Chinese philosophy. From these diverse angles, an international team of experts reflect on the considerations that enter their methodological choices and indicate new research directions. The Bloomsbury Research Handbook of Chinese Philosophy Methodologies is an important contribution to the education of the next generation of Chinese philosophers. **An**

Introduction to Chinese Philosophy Karyn Lai, 2017-03-30 This book explores traditions including Confucianism, Daoism, Mohism, Legalism, and Chinese Buddhism and how they shape Chinese thought. **Comparative Essays in Early Greek and Chinese Rational Thinking** Jean-Paul Reding, 2017-03-02 This collection of essays by Reding in the emergent field of Sino-Hellenic studies explores the neglected inchoative strains of rational thought in ancient China and compares them to similar themes in ancient Greek thought right at the beginnings of philosophy in both cultures. Reding develops and defends the bold hypothesis that Greek and Chinese rational thinking are one and the same phenomenon. Rather than stressing the extreme differences between these two cultures as most other writings on these subjects, Reding looks for the parameters that have to be restored to see the similarities. Reding maintains that philosophy is like an unknown continent discovered simultaneously in both China and Greece but from different starting points. The book comprises seven essays moving thematically from conceptual analysis, logic, and categories to epistemology and ontology, with an incursion in the field of

comparative metaphorology One of the book's main concerns is a systematic examination of the problem of linguistic relativism through many detailed examples

Effortless Action Edward Slingerland, 2007-05-24 This book presents a systematic account of the role of the personal spiritual ideal of wu wei literally no doing but better rendered as effortless action in early Chinese thought Edward Slingerland's analysis shows that wu wei represents the most general of a set of conceptual metaphors having to do with a state of effortless ease and unself-consciousness This concept of effortlessness he contends serves as a common ideal for both Daoist and Confucian thinkers He also argues that this concept contains within itself a conceptual tension that motivates the development of early Chinese thought the so called paradox of wu wei or the question of how one can consciously try not to try Methodologically this book represents a preliminary attempt to apply the contemporary theory of conceptual metaphor to the study of early Chinese thought Although the focus is upon early China both the subject matter and methodology have wider implications The subject of wu wei is relevant to anyone interested in later East Asian religious thought or in the so called virtue ethics tradition in the West Moreover the technique of conceptual metaphor analysis along with the principle of embodied realism upon which it is based provides an exciting new theoretical framework and methodological tool for the study of comparative thought comparative religion intellectual history and even the humanities in general Part of the purpose of this work is thus to help introduce scholars in the humanities and social sciences to this methodology and provide an example of how it may be applied to a particular sub field

Daoism Handbook Livia Kohn, 2018-12-24 Thirty major scholars in the field wrote this new authoritative guide to the main features and development of Daoism The chapters are devoted to either specific periods or topics such as Women in Daoism Daoism in Korea and Daoist Ritual Music Each chapter rigidly deals with a fixed set of aspects such as history texts worldview and practices Clear markings in the chapters themselves and a detailed index make this volume the most accessible key resource on Daoism past and present

Chinese Language, Thought, and Culture P. J. Ivanhoe, 1996 This collection of essays by leading sinologists historians and philosophers both challenges and extends the work of David Nivison whose contributions range across moral philosophy religious thought intellectual history and Chinese language Nivison himself replies to each essay

The Shaman and the Heresiarch Gopal Sukhu, 2012-08-08 The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th 3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as China's first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on those texts that of Wang Yi back to the quasi divinatory methods of the highly politicized tradition of Chinese classical hermeneutics in general and the political machinations of a Han dynasty empress dowager in

particular It also offers an entirely new interpretation of the Li sao one based not on Qu Yuan hagiography but on what late Warring States period artifacts and texts including recently unearthed texts teach us about the cultural context that produced the poem In that light we see in the Li sao not only a reflection of the era of the great classical Chinese philosophers but also the breakdown of the political religious order of the ancient state of Chu

Having a Word with Angus Graham Carine Defoort,Roger T. Ames,2018-03-01 Critical reflections on the work of Angus Charles Graham renowned Western scholar of Chinese philosophy and sinology This volume engages with the works and ideas of Angus Charles Graham 1919 1991 one of the most prominent Western scholars of Chinese philosophy at the twenty fifth anniversary of his passing Over a professional career of more than thirty years Angus Graham produced an impressive amount of scholarship on a wide array of topics ranging from Chinese grammar and philology to poetry and philosophy His combination of rigorous scholarship and philosophical originality has continued to inspire scholars to tackle related research topics and in so doing has required of them a response to his views This book illustrates the range of scholarship still elaborating upon disagreeing with and reacting to Graham s work on Chinese thought philosophy philology and translation

Ancient China John S. Major,Constance A. Cook,2016-09-22 Ancient China A History surveys the East Asian Heartland Region the geographical area that eventually became known as China from the Neolithic period through the Bronze Age to the early imperial era of Qin and Han up to the threshold of the medieval period in the third century CE For most of that long span of time there was no such place as China the vast and varied territory of the Heartland Region was home to many diverse cultures that only slowly coalesced culturally linguistically and politically to form the first recognizably Chinese empires The field of Early China Studies is being revolutionized in our time by a wealth of archaeologically recovered texts and artefacts Major and Cook draw on this exciting new evidence and a rich harvest of contemporary scholarship to present a leading edge account of ancient China and its antecedents With handy pedagogical features such as maps and illustrations as well as an extensive list of recommendations for further reading Ancient China A History is an important resource for undergraduate and postgraduate courses on Chinese History and those studying Chinese Culture and Society more generally

Nature and Heaven in the Xunzi Edward J. Machle,Hsün-tzu,1993-01-01 This translation and commentary on Xunzi s Tian Lun argues against naturalistic interpretations of Tian Tracing the course of interpretation of Xunzi down to the present discussing some of the influences that affected how he was understood and raising questions about some contemporary revisionary attempts Machle suggests unusual lines of interpretation

The Politics of the Past in Early China Vincent S. Leung,2019-07-18 History mattered to the political elite in ancient China Leung explores why it was so important and to what end

Confucian Philosophy of Zhongdaology Keqian Xu,2025-03-30 This book aims to give an account of the origin and the historical evolution of the philosophical tradition of the Way of Zhong or zhongdaology which represents not only the basic characteristic of Confucian philosophical thinking but also the core spirit of Chinese culture in general It addresses the

following questions Is Confucianism philosophy or not In the rich ethics sociology political science and other theories of Confucianism is there a consistent philosophical metaphysics and philosophical methodology What is the difference between the Confucian or the traditional Chinese philosophical way of thinking and that in the Western tradition What influence and significance do the basic principles of Confucian philosophy have on contemporary China and even the world The book traces back to the original sources in ancient Confucian classics conducts systematic and comprehensive research on the core philosophical concept of Confucianism namely the philosophy of the zhong dao the Middle Way and analyzes the multiple meanings and philosophical connotations clustered in the word zhong and embodied in the idea of zhong dao It points out the consistent philosophical view held by Confucianism in a series of philosophical issues such as heaven and human mind and material internal desire and external conditions subjective will and objective feasibility ideal and reality constancy and flexibility means and purpose motivation and effect diversity and harmony centrality and inclusiveness etc and termed it as zhongdaology It further discusses the presentation of zhongdaological thinking in the Confucian ethics and moral theory social and political theory historical view and even aesthetic view It also provides comprehension of contemporary Chinese social and political cultural phenomena from the perspective of zhongdaology This book is a rare introduction for students who want to understand Confucian cultural traditions from a philosophical perspective It is also an illuminating read for general readers who want to understand the philosophical logic behind complex social and cultural phenomena in traditional and contemporary China

Dao Companion to the Philosophy of Mencius Yang Xiao, Kim-chong Chong, 2023-04-11 This book is about the philosophical historical and interpretative aspects of Mencius It explores his influence reception and relevance in China from the third century BCE to the present as well as offers comparative studies of Mencius and major figures in the history of Chinese and Western philosophy With 34 accessible articles written by leading philosophers and scholars the Dao Companion to the Philosophy of Mencius provides both broad pictures and in depth discussions regarding the work of one of the most important and influential Chinese philosophers It covers his normative ethics meta ethics political philosophy epistemology and moral psychology The last section of the volume Mencius and Western Philosophers Comparative Perspectives explicitly puts him in dialogue with major Western philosophers The Dao Companion to the Philosophy of Mencius serves as an essential volume for college students graduate students and scholars who study and teach Mencius as well as Chinese philosophy and comparative philosophy in general

Confucianism Paul R. Goldin, 2014-12-05 Confucianism presents the history and salient tenets of Confucian thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to

rectify this situation It guides readers through the philosophies of the three major classical Confucians Confucius 551 479 BCE Mencius 372 289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today Zhuangzi (Longman Library of Primary Sources in Philosophy) Chuang Tzu,2016-09-16 Part of the Longman Library of Primary Sources in Philosophy this translation edition of Chuang Tzu s works is framed by a pedagogical structure designed to make this important work of philosophy more accessible and productive for undergraduates The Oxford Handbook of Meditation Miguel Farias,David Brazier,Mansur Lalljee,2021 A state of the art guide to meditation science and history its facts and myths Covers the development of meditation practices across the world exploring how the varieties of meditation techniques were created in different cultural and religious contexts Explores ethical social and religious implications and discusses controversial topics Book jacket **Dao Companion to the Philosophy of Xunzi** Eric L. Hutton,2016-11-09 This volume presents a comprehensive analysis of the Confucian thinker Xunzi and his work which shares the same name It features a variety of disciplinary perspectives and offers divergent interpretations The disagreements reveal that as with any other classic the Xunzi provides fertile ground for readers It is a source from which they have drawn and will continue to draw different lessons In more than 15 essays the contributors examine Xunzi s views on topics such as human nature ritual music ethics and politics They also look at his relations with other thinkers in early China and consider his influence in East Asian intellectual history A number of important Chinese scholars in the Song dynasty 960 1279 CE sought to censor the Xunzi They thought that it offered a heretical and impure version of Confucianism As a result they directed study away from the Xunzi This has diminished the popularity of the work However the essays presented here help to change this situation They open the text s riches to Western students and scholars The book also highlights the substantial impact the Xunzi has had on thinkers throughout history even on those who were critical of it Overall readers will gain new insights and a deeper understanding of this important but often neglected thinker Relationality across East and West Jun-Hyeok Kwak,Ken Cheng,2024-12-31 This book explores how the concept of relationality can offer a strong basis for cross cultural dialogue between Western and non Western traditions of moral and political philosophy As addressed in this book the implications of relationality go beyond a Eurocentric binary of Western individualism and non Western collectivism Instead the contributors seek to establish an appropriate discursive stance for understanding and deliberating over relationality across cultural boundaries Through an investigation of the theoretical and practical meanings of relationality across East and West it offers possible frameworks for reconciling the emphasis on individual choice in modern Western social and political philosophy with the amorphous dynamics of relational morality in non Western philosophical discourses Examining relationality in practical forms and culturally situated contexts rather than positing an essentialist view of the relational self this book will be of interest to scholars in political philosophy intellectual history contemporary political theory and Northeast Asian regional studies O - Z Xinzhong Yao,2003 This unique

reference covers Confucianism as a whole in 1235 entries on its history doctrines schools rituals sacred places and terminology and on the new thinking taking place in China and other Eastern Asian countries Written by an international team of specialists it provides extensive textual cross references bibliographies and three comprehensive indexes
